GREAT February Pantaloons Sale!

CAN you be in need of a pair of pants for immediate wear and pass our window without pausing at least a moment to examine those therein marked at \$5.00?
OF COURSE you can't. It would be indeed strange if you didn't stop to take a look at them.
MANY a pair we've sold by having those few discolored in the show windows.
EVERY day lessens the variety of styles to choose from, 'cause such pants at five dollars a pair can't rest long where they are.

AND

It's not strange that they are selling so rapidly. Five dollars will hardly be likely to

BUY

Again such pants as they, 'cause, mark you, they'll cost at any other time but during our Great February Pantaloons Sale, seven or eight of

YOUR

Dollars. It's seldom, indeed, that such

PANTS

Are obtainable for \$5, even here in Duluth, where clothing is sold for so little.

FAIR BUT WICKED

Unfortunate Mrs. Florence Osborne Undergoes a Trying Experience in the London Courts Today.

The Government Declines to Prosecute for the Theft of the Hargreave Pearls.

But the Unhappy Woman is Promptly Rearrested on the Charge of Perjury.

LONDON, Feb. 5.—Mrs. Florence Ethel Osborne, who was arrested at Dover yesterday upon landing there from the Calais steamer, charged in connection with the famous Osborne-Hargreaves stolen pearl case, with obtaining the sum of £550 from Messrs. Spink & Sons, jewelers, of Bond street, the amount alleged to have been paid to her for the stolen property, was brought up a prisoner this morning in the Guildhall court. The lord mayor of London, the Hon. David Evans, presided. Mrs. Osborne, who was dressed in a faint pink gown, was escorted to a seat at the solicitor's table.

At the opening of the court there was a long and painful delay. As time wore on nobody appeared for the treasury, the lord mayor became impatient and then showed signs of decided anger, for he commented in strong terms upon the laxity displayed by the government officials. Finally Lord Mayor Evans adjourned the court for half an hour and sent a messenger bearing a warmly worded note to the treasury department asking the reason for the neglect of the treasury to send a representative to present the charge against Mrs. Osborne and notifying that department that the prisoner would be discharged unless the treasury was promptly represented at the Guildhall.

The result of the lord mayor's message to the treasury department was that before the half hour adjournment had expired an official from that branch of the government appeared, having been driven there in hot haste, and to the astonishment of the court, of the prisoner and of all others present, announced that the treasury did not intend to offer any evidence against Mrs. Osborne. The lord mayor so soon as he had recovered from the state of dumbfounderedness into which he had been plunged by the announcement of the treasury's determination, discharged the prisoner and she left the court room amidst applause from those who had gathered to witness her discomfiture.

Rearrested for Perjury.
Later in the day it transpired that Mrs. Osborne was rearrested shortly after leaving the Guildhall and taken to Bow street police court, where she was formally charged with perjury. This second step upon the part of the authorities was kept a secret in the Guildhall in order to prevent a rush of people to Bow street.

The prisoner was crying bitterly when placed in the dock at the famous police court, but even in that trying position she was supported by her husband, Capt. Osborne, who accompanied her to the Guildhall and into the prisoner's dock at Bow street, doing his utmost to console her. At Bow street evidence of the arrest and charge was given and Mrs. Osborne was formally remanded for a week without bail.

CHILEANS ARE SENTENCED.

Judge Foster Passes Sentence in the Baltimore Assault Case.
BALTIMORE, Feb. 5.—Judge Crimes yesterday passed sentence in the long pending and much-discussed Baltimore assault case. His sentence is subject to review by the court of appeals. The document goes all over the evidence given.

The finding of the court is as follows: Carlos Arena, alias Gomez, sentenced to six days imprisonment for wounding William Turnbull, the coal heaver of the Baltimore who died of his injuries; 300 days for public disorder, sixty days for carrying a knife and in failing to give an assumed name, making a total of 920 days.

Jose Ahumada, sentenced to 300 days imprisonment for injuring Turnbull. Frederico Rodriguez, sentenced to 120 days imprisonment for wounding Turnbull's Mate Chas. W. Riggins, another of the murdered American seaman, for public disorder and for carrying a knife. It is held by Judge Crimes that the evidence does not show that Rodriguez killed Riggins. On the contrary, it is claimed that Riggins' death was caused by a shot which was fired by some unknown person. Gomez and Rodriguez, under the Chilean penal code, must pay the families of Turnbull and Riggins damages. These damages are recovered by civil suit.

Egan Still Guarded.
LONDON, Feb. 5.—The Times' Santiago dispatch says that the police guard around the residence of Mr. Egan is still maintained for the purpose of protecting the legation from chance assaults. This fact is likely to bring about fresh difficulties. The sentences upon the men convicted of assaulting the Baltimore sailors have at the demand of the procurator, been made more severe. It is expected that appeals will be taken.

Brush With Garza.
CORPUS CHRISTI, Tex., Feb. 5.—R. A. Kling, a prominent official of the Mexican National railroad, arrived last night and reports things hot in the lower country. The people of the Duval county are aroused and private parties are assisting the rangers and troops. Capt. McNeil and Brooks with the rangers struck a band of revolutionists yesterday night killed one and captured two of the band. One ranger was slightly wounded.

Lake Superior Canal.
WASHINGTON, Feb. 5.—Senator Davis has presented the resolution of the chamber of commerce of Stillwater, requesting Minnesota representatives in congress to obtain an appropriation of \$60,000 for the survey of a canal between the Mississippi river and Lake Superior.

Fresh print dairy butter, choicest quality 20 cents per pound at the Market, 9 East Superior street.

NORTHWESTERN FARMERS.

They Will Soon Meet and Adopt Articles of Incorporation.
GRAND FORKS, N. D., Feb. 5.—The directors of the Northwestern Farmers' Protective association, engaged in the direct shipment of wheat, of which Osman Thorndson is agent and manager, with headquarters at Duluth, will hold a meeting in this city on the 9th, for the purpose of considering the proposed articles of incorporation of the company, to be known as "The Northwestern Farmers' Protective Elevator company," whose object shall be the erection of elevators at Duluth or West Superior for the storage of wheat for the association.

The proposed by-laws of the elevator company restrict it to the ownership of stock to the members of the association. The capital stock is to be \$100,000 in 2000 shares of \$50 each, no individual to own more than 20 shares. The association may, however, invest any surplus arising from commissions on shipments in the elevator to such amount as the directors think advisable, and if possible shall purchase the stock from any member who wishes to retire.

The elevator company is expressly prohibited from buying wheat, and must lease the elevator to the protective association, which is to have the capacity not needed by the association may be leased to other parties. Storage is to be free for stockholders, who are to hold two meetings annually on the second Thursday in January and the last Thursday in June. The headquarters of the company are located at Grand Forks. The incorporation of the company under articles substantially as above is practically assured.

NEBRASKA CORN.

Two Million Pounds Will Go to Russia With Minnesota Flour.
MINNEAPOLIS, Feb. 5.—The Russian famine fund that will be sent abroad in the care of Edgar and Reeve, the Minnesota commissioners, now amounts to \$450,000 pounds, which is within 1,000,000 of the mark that was originally fixed upon for the ship load. The important part of the present week comes from Nebraska, where 500,000 pounds of corn will go as a part of the Minnesota cargo, duly credited to the state from which it came. Edgar and Reeve have arranged with Ferdinand Schumacker, the Akron, Ohio, miller, to receive this corn, and up of all grades and give its equivalent in kindred corn meal. This meal will be packed in prepared for export by Mr. Schumacker, and branded from Nebraska. In each sack will be placed from 20 to 30 circulars, printed in the Russian language and giving instructions for the making of corn bread. Corn meal is a new thing to the Russians, and while this famine relief will be much suffering, it is also believed that it will make the Russian peasant familiar with an article of food which he is accustomed to be very popular with him. The contributions to the fund will close on Wednesday of next week.

Victory for the Pope.
PARIS, Feb. 5.—The tribunal at Mont Didier held in the suit regarding the will of the late marquis de Plessis and his wife, who bequeathed the bulk of her property to the pope. Marquis Collet disputed the will, claiming the French people had no right to interfere over the testator. The tribunal found that no undue influence had been exerted and that the pope, if authorized by the French people, had the right to receive the residue bequeathed to his holiness in the will.

Tobacco Warehouse Burned.
LOUISVILLE, Ky., Feb. 5.—A disastrous fire started at 5 o'clock this morning in the office of the Central Tobacco warehouse of Edwards, Bernard & Co. W. S. Edwards, the senior member of the firm, was burned to death. He was in the room at the time and it is supposed that he never awoke. The loss to the building and contents is estimated at \$75,000, fully insured.

Counterfeits at Work.
ALTOONA, Pa., Feb. 5.—A number of professional counterfeiters today looted this city with spurious \$5 legal tender notes. The counterfeiters are a very poor lot of the genre, yet large numbers of them were worked off. Two banks took them in without detecting the fraud. The police and detectives are working upon the case, but so far have met with no success.

Couldn't Live Without Her.
NEW YORK, Feb. 5.—The dead body of Frederick Zenner, who shot and killed his sweetheart Maggie Wissmiller at 24 East One Hundred and Twenty-sixth street at 11 o'clock on Wednesday night was today found in a vacant lot on One Hundred and Eighty-fourth street. There was a bullet hole in the right side of the head, and a 32-caliber revolver was lying beside the body.

Johnstown Flood Memorial.
JOHNSTOWN, Pa., Feb. 5.—The dedication of the flood memorial hospital took place yesterday in the presence of a large assemblage of people. An interesting program of music and addresses was rendered. A public meeting was held in the opera house and resolutions of thanks to a charitable world were adopted.

Four Hundred People Idle.
TRENTON, N. J., Feb. 5.—The braiding building of the John Koebling, Sons & Co's wire works, was destroyed by fire last night. The building was used for the purpose of putting braid on telephone and electric light wires. The loss on the building and contents is estimated at \$150,000. Four hundred people are thrown out of employment.

An Egg Famine.
CHICAGO, Feb. 5.—Chicago is in the midst of an egg famine owing to the bad condition of country roads and inability of farmers to get eggs to market. Fresh eggs jumped today from 23 1/2 to 30 cents per dozen on ice house stock with a decidedly strong boarding house flavor was begged for and sold sparingly at 30 cents.

Emulating Francis's Example.
GRIMSBY, G. T., Feb. 5.—Yvonne B. Payne and Zenophon Fitzgerald have filed suits in the district court to gain heart of 160 acres land each in the heart of this city, claiming the land was taken by them for homestead before the townsite people claimed. The property in question is believed to be worth over \$100,000 and the city will fight the suits to the end.

Sold for Cleveland.
LOCKPORT, N. Y., Feb. 5.—The Niagara county democratic convention yesterday elected a solid Cleveland delegation to the state convention.

DEFINING OPTIONS

John Whitaker, the Big St. Louis Packer, Entertains the Agriculture Committee Today.

He Waives Right in and Deals the Non-Owners a Telling Blow.

Whom He Characterizes as the American Anarchist and the Farmers Worst Enemy.

WASHINGTON, Feb. 5.—The house committee on agriculture continued its hearing today on Mr. Hatch's bill defining options and futures. John Whitaker, a prominent meat packer of St. Louis and of Wichita, Kan., was heard in favor of the bill. He stated that it was only within the last 10 years that short sales by non-owners have affected prices in Chicago and St. Louis in selling cotton or grain.

The main object in selling something you do not possess, he said, was to depress prices, and it is one of the greatest evils that had ever arisen. Between 1880 and 1885 wheat in Chicago sold at \$1.04, but at 1885 it sold at 87 cents. This was not caused by over production but by short selling. In Chicago, he said, no figures are kept of short selling, but he had figures from such sales in New York. In New York the transactions in January, 1892, were: Receipts, 3,125,000 bushels, and sales 3,500,000 bushels; futures over 83,000,000 bushels; exports, 4,125,000 bushels. He thought the selling of 83,000,000 bushels in futures was a great outrage. This selling in excess could not do otherwise than hurt prices.

In the last five years this country has sold farm products for \$150,000,000 less money than could have been gotten had it not been for sales by non-owners. He was of the opinion that there was nothing in the bill under discussion that would legitimate trade. Farmers did not hold on to their wheat as it was a losing game. But if the market could be fixed the farmers would sell their wheat when they would be all right.

Mr. Whitaker said non-owners, or in other words, the American anarchists, for that is what they are, should be wiped out for they would make the farmer sell his produce under their red flag. Let supply and demand fix prices, said Mr. Whitaker, and we will see if the price of wheat will be 81 cents or 81 1/2 cents. He thought that the law had been enacted by the last congress the price of wheat would have gone over \$1. In answer to a question he said he did not think the passage of the bill would hurt the legitimate dealer and if shorts are taken away it would tend to increase prices. He did not condemn option dealing in Liverpool as Europe is more a dealer than a producer of wheat. For the same reason option dealing in coffee in New York were proper as the United States does not raise coffee. Such dealings would lower its price.

About two years ago, he said, the Chicago bucket shops did an illegal business, but at the same time they never said anything about the illegal sales on their own floor. It was just as had in St. Louis as in Chicago. If there were no fictitious sales of hog products the packer could pay the farmer a higher price.

Work of The House.
WASHINGTON, Feb. 4.—Upon the assembling of the house today the speaker would tend to increase prices. He did not condemn option dealing in Liverpool as Europe is more a dealer than a producer of wheat. For the same reason option dealing in coffee in New York were proper as the United States does not raise coffee. Such dealings would lower its price.

Washburn on Sawyer.
WASHINGTON, Feb. 5.—Mr. Sawyer made one statement before the committee yesterday that Senator Washburn says was humorous. Sawyer claimed that the anti-option bill went into effect before spring the country would be thrown into a tremendous panic. Washburn says that the bill will go into effect within 30 days after its passage, and in the interim wheat will go up 25 cents a bushel.

ON HER DIGNITY.
Chicago Will Not Ask Uncle Sam to Invest in the Fair.
CHICAGO, Feb. 5.—It is now practically settled that the Chicago World's fair directory will not ask congress to give them a dollar in aid of the Columbian exposition. The proposition to go before congress and solicit a loan of \$5,000,000, and the movement to have Uncle Sam invest in \$5,000,000 of World's fair stock will be both abandoned, and in their stead a bill will be brought forward by the national commission asking congress to appropriate about \$1,000,000 to be expended by the national commissioners appointed by the President.

If this appropriation is secured, no part of the \$1,000,000 will be spent on the ground and buildings of the exposition. The entire sum will be paid out for administrative purposes on the lines laid down by the law of congress creating the exposition. General J. W. St. Clair, of West Virginia, and his associates on the committee of federal legislation of the national board outlined the plan of campaign, and it is as good as settled that the local directors will endorse Gen. St. Clair's new plan.

Ambitious to be Hung.
MEMPHIS, Tenn., Feb. 5.—Yvonne B. Payne and Zenophon Fitzgerald have filed suits in the district court to gain heart of 160 acres land each in the heart of this city, claiming the land was taken by them for homestead before the townsite people claimed. The property in question is believed to be worth over \$100,000 and the city will fight the suits to the end.

THE ROAD ASSURED.

The Mankato & Northwestern Railroad Company File Articles.

DUNDAS, Feb. 5.—It seems now to be an absolute fact that the new railroad project so long under consideration has finally become an assured fact, articles of incorporation having been filed, known as the Mankato & Northwestern Railroad company, with a capital of \$1,000,000. The incorporators constitute a long list, all Eastern Minnesota men.

The road is to have for its southern and eastern terminus the city of Mankato, running in a northerly course, striking the Mississippi river, crossing that stream and making Duluth its northern and western terminus. The line will traverse one of the richest timber belts in Minnesota, passing through about nine miles west of Dundas, Northfield and Faribault, probably striking Farmington, so in order to catch a portion of the trade which will naturally come from Northfield, Faribault and Western parts from Southeastern Dakota.

WENT TO GLORY TOGETHER.

A Trio of Kentucky Murderers Die on the Gallows Today.

CINCINNATI, Ohio, Feb. 5.—Robert Charleton, a negro, was hanged at Henderson, Ky., at noon today. His crime was that of killing his mistress, Minnie Martin, last September, because she refused to give him money with which to gamble.

At Clay City, Ky., at the same hour, Simpson Bush was hanged for the murder of his wife in June 1890. The girl had been married 18 months and was deep with a 4-months-old baby in her arms when Bush shot her. An effort was made to make it a case of suicide, but it failed and Bush narrowly escaped lynching at the time.

William Puckett, a hunchback, known as "Kagback Bill," was executed at Charlestown, Ky., simultaneously with Charleton and Bush for the murder of Henry Hall during an election, Nov. 4, 1890.

President Dill Not Guilty.

CLEARFIELD, Pa., Feb. 5.—The trial President Dill, of the First National bank of Clearfield and of the House of Representatives, came to a sudden ending today. From the nature of evidence Judge Mayer took the case from the jury and ruled that the First National bank was responsible for the amount of the draft and that Dill could not be convicted in the light of the evidence adduced. The judge directed that a verdict of "not guilty" be returned. The order asked for was granted and Dill was discharged on all the commonwealth cases on the docket in this county. The depositors of the Clearfield First National bank are much exercised over Judge Mayer's rulings, while the House depositors are much elated.

Would Work the Hotels.
CHICAGO, Feb. 5.—Speculators are trying to get in their work on the hotels in anticipation of the democratic national convention. Many of the principal hotels have received letters from unknown parties asking that suits of rooms ranging all way from 10 rooms to 30 be put at their disposal. All such requests, however, have been denied, and only those emanating from delegations; newspaper correspondents or well known politicians have so far been entertained. A canvass of the hotels situated within the business center and for one mile around indicates that 50,000 strangers can be housed and fed without crowding or inconvenience.

Will Not Wear Stripes.

KANSAS CITY, Feb. 5.—Dick Breeze, convicted of embezzling \$10,000, will not wear stripes. Marshall Stuart had so much faith in Breeze that he allowed him to go on errands all over the city. He went from San Francisco to his arrest and returned after his conviction. Wednesday night Governor Francis met Marshall Stuart and instructed him to bring Breeze to the penitentiary. Stuart ordered Breeze to go to the penitentiary prepared to serve his term of two years. Breeze was turned loose from jail yesterday, took a train for Jefferson City, applied to the warden of the prison and while preparing to don stripes was pardoned by the governor.

Fell Sixty Feet.

BIRMINGHAM, Ala., Feb. 5.—Nine men fell sixty feet at the Sloss furnace this afternoon and two of them were instantly killed. Three more are dangerously hurt. The men were working on scaffolds sixteen feet in diameter riveting the sheets of steel of which it is formed on the scaffolds. Besides the men were a portable forge for beating the rivets and three kegs of rivets. This great weight, caused the scaffolding to give way and suddenly the whole thing, went tumbling to the ground.

Germany at the Fair.

BERLIN, Feb. 5.—The emperor has shown in an unmistakable manner his interest he takes in the Columbian exposition in recent conversations with Krupp, the famous ironmaster, and Schlutow, manager of the shipbuilding works at Stettin. He urged them by all means to exhibit the latest products of their vast industries at the fair and pointed out to them the great advantages to be derived for themselves and for Germany by such an exhibition.

Gould Signs the Agreement.

NEW YORK, Feb. 5.—Jay Gould has signed the agreement for the reorganization of the International & Great Northern, and the plan will doubtless be carried out. It is understood that he has guaranteed the payment of assessments of dissenting stockholders. The committee of second mortgage bond holders has called a meeting of the bond holders for Feb. 10, to ratify the plan.

For Census Deficiencies.

WASHINGTON, Feb. 5.—A bill appropriating \$200,000 additional to carry on the work of the census office was reported to the house yesterday by Mr. Sayers, of Texas. The census office needed for several months to cover deficiencies and to carry on the work, the lowest amount asked being \$275,000.

Flour Mills Burned.

COVINGTON, Ky., Feb. 5.—Last night Trumpet flour mills on the corner of Fifth and Craig streets during the second time were burned. The loss is about \$75,000 with only \$16,000 insurance.

Disappeared With \$4000.

HAMBURG, Iowa, Feb. 5.—The Bank of Hamburg, at this place, was robbed of \$4000 last night. It is supposed to have been done by the bookkeeper who is missing.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb.
5.—The storm which was central over Kansas
yesterday has moved to a rather more central
position and is now central in the Tennessee
valley. An area of low pressure is forced over
Montana and Manitoba, while the center of an
area of medium high pressure is over the
Gulf of Mexico. A heavy rain and snow has fallen in the
Southern states and snow has fallen in the
valleys. Snow is now falling at Marquette, De-
troit and Cincinnati. Over the northwest the
weather is clear.
Only one station, North Platte, Neb., reports
a temperature of zero, and from that it ranges
up to 14° in Arkansas. There was a fall of 14°
last night here, reducing the temperature to 12°
at 7 this morning.

DULUTH, Feb. 5.—Local forecast for Duluth
and vicinity for twenty-four hours ending at 8 p. m.
Feb. 6: Fair; slightly warmer; wind becoming
southerly.
B. H. BROOKS,
Observer.

WASHINGTON, Feb. 5.—For Minnesota and
the Dakotas: Fair weather; variable winds;
probably fair Saturday.
For Wisconsin: Fairly cold; northerly
winds; generally fair weather; probably fair
Saturday.

DISPOSITION OF THE OFFICERS.

Now that the election is over, there is
much speculation as to what changes
will be made under the new mayor and
council.

The city attorney and city clerk are
elected by the council, but partisanship
should have naught to do with their
selection. Frank Burke will prob-
ably receive the solid vote of the whole
council regardless of party, and succeed
himself in the clerkship, which he has
been so faithful, courteous and efficient.
Should Mr. Allen withdraw from the at-
torneyship the council will doubtless
tender it to H. F. Greene, Judge
Morris, C. A. Towne, or some
one of their class who will main-
tain the character and dignity of the
place and incidentally reflect credit on
the administration.

The clerk of the municipal court and
his assistant are appointed by the judge.
The present clerk was but recently given
the position and has hardly had time
fully to demonstrate his fitness for the
place. It is probable that a successor
may be found as time flies by, but there
are not likely to be any immediate and
radical changes in the judicial depart-
ment.

The mayor appoints his own private
secretary, the chief and all members of
the police force, the city assessor, build-
ing inspector, fire warden, fills vacan-
cies on the board of public works, ap-
points the railroad commissioner, whose
salary goes to the chamber of commerce,
also poundmasters, and numerous minor
attaches of the government. There
seems to be general satisfaction in the
suggestion of J. K. Shaw for chief of
police, and the Herald is of opinion he
would make an efficient and popular
officer. An assessor needs experi-
ence, together with special fitness
for the place, and it is not un-
likely the claims of the incumbent
C. E. Cooley, will be considered in con-
nection with the place. As to the rest, it
is safe to predict that Fire Warden J.
H. Baker, oracle and guide of the peo-
ple's party, will betake himself along
some other highway of happiness where
his versatile talents will find a wider
field and more pleasing prospect.

It is said to be tacitly understood that
Charles Long will try to be a good and
true alderman from now to the end of
his term, in consideration whereof a few
of the more prominent promises he
made for poundmasters will be carried
out by the new government. This is a
courtesy justly due to a competitor, and
will remove the sting from the election
returns. Thus everything is assuming a
pleasing shape, and the d'Arenmont ad-
ministration will, as predicted by the
Herald, be in the hands of good men
and begin its career in the fullest con-
fidence of the people.

THE TARIFF PROGRAM.

Chairman Springer, of the ways and
means committee, in the February num-
ber of the North American Review
points out the folly of the present demo-
cratic house spending all summer in
framing a general tariff bill which could
by no possibility pass the senate or re-
ceive the signature of the President. It
would be a case of love's labor lost, and
Mr. Springer agrees with the most as-
tute leaders of his party that it is best to
aim at the real and practical. There
are some grounds on which the two par-
ties can meet, and if the real interests of
the country rather than political bun-
combe, are sincerely desired, they will
join forces and accomplish what they
can. It is believed that
free wool and some other raw materials
would be hailed as the best sort of pro-
tection to New England, and command
a very considerable republican support.
Free salt, lumber and binding twine
would satisfy the farmers, and it is
hardly probable that the President would
veto such a measure. Thus something
practical could be accomplished, and
though it would be charged that the ma-
jority of the house did not dare present
a bill of their own, such a cry would be
purely for political effect and easily
understood by the people. The demo-
cratic party is on record as to its tariff
views and need give no further assur-
ance of its position than to accomplish
what is possible along that line. Thus
will it please itself and serve the country
well.

THE PRETENSE CLAIMANTS.
The gentlemen who have engaged to
succeed Prentice in his pretensions to a
title to land in Third and Bay Front di-
visions, are still in Duluth and striving
through postal card communications
with their victims to secure some sort of
settlement.

The Herald has heretofore urged its
readers to pay no attention whatever to
these adventurers who are here for no
worthy purpose, and await the decision
in the equity suit now pending before the
federal court in St. Paul. It is set for a
hearing in April, and there is not the
slightest doubt that it will jerk the
silver lining out of the lands which Prentice
and his pals hold over the clouds in
question. To contribute a dollar now is
merely to help the pretenders continue a
losing legal fight.

Those who have settled did so for
business reasons which do not now
exist, and in no case is the amount paid
looked upon as anything but blood
money. The fact that a few of the larger
property owners, who for several
years had borne the expense of the legal
battle, saw fit to settle for less than it would cost them to carry a suit up through the courts is no
ground for any of the smaller property
owners now banded together to do so. The
cost to them of a suit, under the present
arrangement, is merely nominal, and as
its determination is now so near at hand
everyone can afford to stand by the de-
claration, "millions for defense, but not
a cent for tribute."

To the Herald it would seem just to
be honorable for a band of robbers to lo-
cate in some safe place and levy on the
people for protection against robbing their
houses or sacking the city. And those
who contribute under such conditions only
aggravate the case. There should be no weakening now.
These bloodsuckers have no more title
to third division property than the re-
cent Illinois fanatic had to the title of
the Savior. Throw their communica-
tions in the fire and treat them with the
contempt they deserve. And any citi-
zen of Duluth who will join hands with
them in their enterprise deserves to be
run out of town on a rail. We are not
sure but a movement of this kind may
be soon inaugurated, and the rail ought
to be carefully selected from a barbed
wire fence.

Capt. Willard Guier is still pounding
away at the source of the Mississippi
through the Chicago papers while most
people are interested in the jetties at its
mouth where the late Capt. Eades gave
the Father of Waters a set of false teeth.
The question as to which pond it starts
from or how first fought the mosquitoes
on the said pond's bank, is of little more
real importance than the query, Who
struck Billy Patterson? What we are
most interested in, is to learn if Billy
still lives and whether the waters still
flow.

There was some criticism of the way
David Hill hung on to the governorship
of New York, but then David was elec-
ted to the office and had a moral and
legal right to hang on if he desired to do
so. Our friend, Thayer, of Nebraska,
has, however, no such claim, but the way
he hangs on to the gubernatorial chair
of that state must surprise even a Tam-
many chief, and surely betrays a fear
that if he let go he would fall keelhaul
into oblivion. And in fact oblivion is
the only cure for some folks.

The presidential election is still ahead
of us, but as the one most important to
our people is already over, it seemeth
well that we should for several months
live in peace together and direct our
thoughts toward commercial triumphs.
Deep waterways, railway terminals, new
roads to the Mesaba country, iron manu-
facturing, and other interests claim our
attention and should not be neglected for
the spoils of political warfare.

Hon. Richard Croker averts in an ar-
ticle in the North American Review that
the democratic candidate for president
will carry New York whether he is the
choice of Tammany or not. Richard
thinks that New York and Kings coun-
ties can roll up 85,000 majority for the
unwashed which will overcome the op-
position majority in the rural districts.
If the Tammany leader speaks truly it
would be well for his party to choose
Cleveland.

As H. F. Greene, though a resident of
Lakeside, is eligible to an appointive
office under the city government, and is
highly qualified as a legal counselor, the
Herald would be pleased to see his name
considered in connection with the city
attorneyship. Mr. Greene possesses a
judicial cast of mind and is a gentleman
who would in every way give character
and distinction to the new administration.

Our republican friends at home and
our republican exchanges abroad should
be composed. The "wide open" policy
they seem to fear for Duluth is one their
party manufactured and, as they charge
themselves, used here for several years.
Are they weary of their own deeds?
Well, there are no symptoms of a return
to such a policy. Be calm, brethren.

The Tribune today wanders from the
path of journalism to delve in private
family matters to the extent of a column
and a half. The whole matter is utterly
out of place in the public press, and the
Tribune, as we suggested of others yester-
day, is in need of a managing editor.
Newspapers have no mission to pry into
private closets.

It is pretty nearly time terminal mat-
ters should take definite shape. Six
months have passed us by since the work
of adjusting matters was begun, and as
yet we have no definite assurance that
anything practical is in sight. Keep the
ball rolling.

We congratulate St. Paul on the choice

of Editor H. A. Castle for postmaster
and likewise Fargo in the choice of
Editor J. J. Jordan. The present ad-
ministration remembers all nationalities
with a preference for the Bohemians.

political and other results invaluable as
a ready reference.

PEOPLE WITHOUT NERVE.

It seems to be a common occurrence
after the Grip, but a few suggestions
are given about preserving it.
It is a well known fact among medical
men that those who have suffered at
any time from influenza rarely recover their
former health. The patient does not feel
so well, cannot do the work that he could
do before the attack, he complains of
neuralgia, is easily tired, his eyesight is
poor, and his head aches if he uses his
head for any length of time.

All of these symptoms are directly
traceable to the attack of the grippe, al-
though they may not show themselves
until some time after; so that it appears
that a limitation must be put upon con-
gratulations one usually receives after
having recovered from an attack of the
grippe. It may be a matter of no mo-
ment at the time, but one cannot re-
call a name, or that there is a slight
pain in the back of the head, still if
neglected the result will be complete
nervous prostration, perhaps death, as a
result.

It becomes absolutely necessary for a
person who has just recovered from the
grippe to first of all build up the ner-
vous system and vital forces. Not simply
stimulate them but feed them. Ordinary
food is not enough; something more is
required. You may search constantly;
ask doctors without number, but they
will find nothing that will give you so
much strength and tone as Paine's Celery
Compound. If it were an ordinary
nervine or sarsaparilla, it would not ac-
complish the wonderful things it does.
If it were not a food as well as a tonic,
the nerves would not feel the vigorous
strength they do after its use, nor the
blood the glow which the use of the
compound is certain to impart.

One or two of many statements to
prove the above assertions are given
herewith:

An attack of the grip left me very
weak, with a dizziness and a rumbling in
my ears, palpitation of the heart, so
nervous that the least noise made me
jump, tired all the time, and with no ap-
petite. I commenced using Paine's
Celery Compound, and picked up right
away. I gained eight pounds in two
weeks, and today am feeling as strong
and well as ever. I have recommended
the Compound to others after the grip,
and they all tell me it was just what they
needed. Yours sincerely,
H. R. LANE,
Burlington, Vt.

Last year I had two severe attacks of
the grippe, which left me very much im-
bilized and weakened. I did not get
my strength; head seemed toiling, legs
were weak; got exhausted easily; had
no courage.

My wife, who had used Paine's Celery
compound with splendid results, induced
me to give it a trial, and now I am as
much an advocate of it as she is, for it
did wonders for me. I brought me back
to my usual robust health again. To
any one who has had the genuine grippe
and is alive, I would say, "give it a trial."

J. T. BAXLEY, Wakefield, Mass.
If you would have nerve, strength,
health. If you would recover from all
the bad after effects of the grip use care,
in judgment, use the great compound
above described. Do not be deceived
into securing some cheap "blood puri-
fier," secure the best and most secure
your full health as so many others have
done.

DULUTH'S SOCIAL SIDE

The Ladies' Literature Class, a Brief Resume of Its Past and Its Present.

What Has Been Done by Duluth People in a Social Way This Week.

A Few Small Companies and Several Musical Affairs: Something About People You Know.

Perhaps there is no institution in Duluth which in a quiet way has done more for the good of the city than the ladies' literature class. It is a social organization, in that its members are all people prominent in the social life of Duluth. But it is first of all an intellectual club. One forum for hard work and for practical results. What it has aimed at has been accomplished. The progress made by its members has been real and substantial. The women of society as a rule are given very little credit by the world at large for possessing any ideas beyond a narrow round of social "functions" more or less elaborate. Often possibly this is the case. More frequently it is not. Certainly nothing could be further from the truth than such a statement regarding any of the women of Duluth who are members of its literary class. The literary class however is unique in many ways. It has a history all of its own and during its eight years of existence has always been more or less successful. There are other clubs doing much the same thing, but few doing it in so thorough and scholarly a way. Many of them have yielded to the temptation of the times and succumbed to popularity and while they are still strong and worthy of great praise they could have been better without the change.

As an example of the work of the literary class, doing the subject of their study being just now the poetry of Browning, a few questions are taken from the list for Feb. 4 when the meeting is to be held with Miss Markell. Is Robert Browning's poetry the reactionary product of the 19th century scepticism?

What is his theory of poetry?

What is the difference he indicates between the subjective and objective poet?

What is his philosophy of life?

What is his attitude toward Christianity?

What does he teach is a condition of the soul's vitality and progress?

Does he teach that the limits of time serve or enslave the spirit?

On what does he ground his belief in the immortality of the soul?

What will be the literary and moral effect of Browning in literature?

What is his message to the 19th century?

There are many students of literature who would be puzzled by some of these questions, and perhaps some who will say that they are a little heavy for anyone who has not made Browning a life study, but at the same time and suffered that the literature class is making an intelligent effort to appreciate the great poet. Such a class cannot but lead to best results.

"The Prince and the Pauper."

Mark Twain once wrote a tale in which a prince, in a boyish form, changed garments with a little pauper and suffered a good many misadventures after he tried of the subsequent change of position. Mrs. Abby Sage Richardson dramatized the story. Little Elsie Leslie impersonated the prince, and the ragged lad, New York approved and Mark Twain rejoiced. The production of the play will occasion interest here. As neither the play nor the show the young artist who sustains the leading role have been seen here before, the attendance is likely to be very large.

The Wardwell Recital.

The song recital given last evening by Mrs. Wardwell and her pupils to a small invited audience at the Saturday club rooms proved an interesting and enjoyable event. In all nine numbers were rendered, all in splendid style and in a way that spoke of the high capacity of the pupils and the instruction given by Mrs. Wardwell. Those taking part were Miss Mabel Padlock, Miss Culliford, Mrs. John Seagor, Mrs. H. S. Bryon, Miss Agnes Kingman, Miss Goodale and Miss Louise Brown.

A Musical Suite.

What is the musical suite, has been formed by a number of Mr. Ernest Lachmann's pupils. Miss Emma Johnson is elected president. Misses Inez Hibbard and Mabel White vice presidents and Mrs. Wm. Harrison secretary and treasurer. Besides their regular meetings the club will give musicals for themselves and friends at their homes.

A Pupils Musical.

A recital was given yesterday afternoon at 205 East Third street, by five of the pupils of Mrs. Stocker, assisted by Mrs. White. The program was as follows:

Andante, McDougal
Lullaby, Water
"Snow Drop," Miss Ruth Markell.
"How Blue," Miss Wilhelmine Ruppel.
"Happy Dream," Miss Edna Harris.
"Gloria Patri," Miss Florence Ann Scherzo, sonata in G.
"The Little Woodbird," Beethoven.
Largo, sonata in G, No. 1.
Mrs. W. C. White.
Fifth symphony.
Mrs. Stocker and Mrs. White.

The Unity Club.

The next meeting of the Unity club will be devoted to a discussion of Oliver Wendell Holmes which will be led by Miss Ella Lynch and Miss Anna Noble. The meeting will be held Monday, Feb. 8.

The K. of P. Anniversary.

Two weeks from yesterday will be the twenty-eighth anniversary of the found-

ing of the order of Knights of Pythias. The occasion will be celebrated by Duluth knights with appropriate ceremonies, and members of the order on the Superior side of the bay have been invited to join. It is more than probable they will accept.

A New Club.

A new club has been formed in Duluth called the "Once a Week Club." The aim of the club will be to give some kind of an entertainment once a week, to consist of dining and sleighing parties, socials and dances during the winter. The first entertainment will be a coasting party, to be given the first of the week after which the club will dance and enjoy a picnic supper. Several well known young ladies will manage the club and a series of successful and enjoyable entertainments are assured.

Saturday Club.

Next week's meeting of the Saturday club will be devoted to Martin Luther, considered as to his influence both of himself and his writings upon literature. The subject for conversation will be "Luther's Translations from the Bible." The leader is Mrs. E. O. Field.

Social Month.

Mrs. W. H. H. Stowell is visiting in St. Paul.

Mr. and Mrs. A. B. Woolven have gone for a visit to their home in Duluth.

Mrs. C. F. Blackwell leaves soon to join her brother in law in Pittsburg.

Mrs. George Wetherill is at Newport, Ky., for a visit with her parents.

Mrs. Ralph Vernon, of Galesburg, is visiting her sister, Mrs. W. S. Reilly.

Mr. D. Dewey, Jr., of Louisville, visited this week with Frederick Converse.

Mrs. C. T. Foster was the guest of friends here for a few days this week. She was en route to the coast.

The engagement of Miss Georgine Calhoun to Mr. J. C. Calhoun, of Alhambra, has been announced.

Mrs. McPherson, who has been visiting with her parents, Mr. and Mrs. Rust, of Saginaw, is expected home this week.

Miss Letitia Webber and T. C. Rydman were married Wednesday morning at the pro-cathedral by Bishop McGillicuddy.

The Epworth League held a Valentine social on Friday evening in the Methodist Episcopal church. There was a program and supper.

Miss Jennie Sutherland and Miss Sue Stearns entertained the members of the "Chatter Box" in a very pleasant manner on Wednesday evening.

Mr. and Mrs. Charles B. Atwater have returned from their wedding trip, and the first of their Friday receptions yesterday was a pleasant affair.

The Choral union of West Duluth will give an entertainment some time next week. The entertainment last winter met with much success and this entertainment given by this organization is expected to be equally successful.

There was a pleasant party at Judge Stevens' in honor of the arrival of a long list of articles representing the members of the English book club.

JAMES G. BLAINE.

For the Second Time in His Career Puts Aside a Presidential Nomination.

He Announces His Determination Not to Go Before the Republican Convention.

Unanimity of Opinion That Harrison Will Now Capture the Minneapolis Nomination.

WASHINGTON, Feb. 8.—The following letter announcing Secretary Blaine's withdrawal from the field of candidates for presidential honors was given to the public last night:

"Hon. J. S. Clarkson, chairman of the republican national committee.—My dear sir: I am not a candidate for the presidency and my name will not go before the republican national convention for the nomination. I make the announcement in due season. To those who have tendered me their support, owe sincere thanks and am most grateful for their confidence. They will, I am sure, make earnest effort in the approaching contest, which is rendered specially important by reason of the industrial and financial policies of the government being at stake. The popular decisions on these issues is of great moment and will be of far-reaching consequence. Very sincerely yours,
"JAMES G. BLAINE."

FEELING IN OHIO.

Sherman Element Delighted; Democrats Consider it a Win.

COLUMBUS, Ohio, Feb. 8.—The news that Blaine has sent a letter to Chairman Clarkson declining to be a candidate for the republican nomination for the presidency was interesting news indeed to Ohio politicians last night. The democrats generally seem to regard it as leaving the field clear for Mr. Harrison and they mean that the President will be nominated again. The Sherman faction of the republicans are very much pleased over the condition this leaves the work of the Minneapolis convention in, though some of them think Alger will come forward prominently now as a candidate.

To the Foraker republicans the news was evidently unwelcome. Some of them said that if Clarkson was nothing more than would be expected from Mr. Blaine, as an act of fealty to the administration whether he would accept the nomination or not. They say this brief letter will be so regarded by Mr. Blaine's friends who will not close their work in his behalf because of it. Others of the Foraker faction say they believe Mr. Blaine is sincere in saying that he does not want the nomination, but think there is a popular demand for him to be the candidate, which he will not ignore when he has been manifesting his withdrawal from the nomination. Nevertheless, it is plain that the letter has put a damper upon the Foraker republicans who were preparing to take their work in his behalf. In fact the part it took in the recent senatorial contest in Ohio, by throwing their influence to Blaine and thus defeating Harrison. They doubt that Harrison can be defeated for the nomination by any other man.

WAS THEIR IDOL.

Blaine's Withdrawal a Bitter Pill for California Republicans.

San Francisco.—Blaine's letter of withdrawal was a bombshell in the camp of the republicans here, the great majority of whom have taken no stock in the repeated dispatches from the East that he would retire from the race. Blaine has no more enthusiastic followers than the California republicans. They have stayed by him through thick and thin. It was a bitter pill when they had to accept Harrison. They have been clamoring for months that Blaine was the man to lead the party to victory and his withdrawal has been a heavy blow. Harrison has never been popular here, even his visit did nothing to help him. Blaine was the idol of the Californians and would have secured a heavy vote, many democrats preferred him to any man in their own party. Among the democratic politicians the news of Blaine's actual retirement was received with joy, as all who talked on the subject last night held that there is no man in the republican ranks except him who is formidable or who can defeat either Cleveland or Hill.

BLAINE AND THE PRESS.

The Chicago Herald, of Course, Doubts the Puffed Knight's Sincerity.

CHICAGO, Feb. 8.—The Herald this morning says: "The popular conception of James G. Blaine's character will manifest itself today in the question which will be very generally propounded. Does he mean what he says in his letter to Mr. Clarkson announcing that he will not go before the republican convention for the nomination? The Herald does not imagine that the brief note to Mr. Clarkson will quiet the demand of the republican party that Mr. Blaine become the candidate. Some disclaimer was necessary if he expected to remain in Mr. Harrison's cabinet. The intrigues of himself and his friends have gone as far as it was possible for them to go while he retained the President's official household, a post heretofore supposed to demand all of the occupants loyalty and devotion to his chief. The Clarksons letter comes, therefore, too late to be regarded as spontaneous and wholly sincere and its general interpretation will be along the line which its author has made familiar to the people."

The Tribune says: "The announcement is definite and unequivocal and those who believe in Mr. Blaine sufficiently to wish that he might be the candidate will accept his withdrawal with respect to hear from those who are accustomed to annoy Mr. Blaine with reflections upon his candor that his letter means something different from what it seems to mean. We shall be told by these interpreters of subtleties that Mr. Blaine might have chosen plain language; that he might have said, 'I

would not accept the nomination if it should be tendered to him, or that 'He did not wish his name to be considered by the convention under any circumstances, and so on. But it is scarcely worth while now to argue with those who claim no distinction except that arising from their association as friends or enemies with Mr. Blaine's past political career. His wise supporters will accept his letter as having been written without reserve, and they will not impute insincerity to him because he has never yet learned how to be ungracious.

The Times: "It had long been believed and the letter shows the belief was well founded that an understanding had existed between Harrison and Blaine touching the nomination of 1892. Having centered in himself the opposition to the Foraker nomination, the White House management has been too shrewd for the Foraker faction. It has caught them all in the Blaine fly-paper and left them struggling hopelessly. The Minneapolis nomination will now be a willing stalking horse.

The New York Press: "The real leader of the Foraker faction is at an end. For a second time in his career James G. Blaine puts aside a presidential nomination that would without question be his if he would accept it. He is the strongest man and would be the strongest candidate of his party. Crowning his other services to the republic, he has recently won a conspicuous victory for peace with honor against the brutal bluster and jingoism state cold-blooded scheming of selfish politicians.

The Times says: "Whatever other motives he may have had in making this announcement in due season, there is not much room for doubt that his chief and determining motive was his conviction that he would not be elected if he were nominated and next to that his opinion—possibly his hope—that Mr. Harrison could not be elected either."

THAYER STEPS OUT.

Officers of the Thayer Regime Fold Their Tents and Sneak.

OMAHA, Feb. 8.—The suspense in the gubernatorial mud-sling at an end. Governor Thayer today turned the office over to Governor Boyd.

A Lincoln special reports great commotion in the state house when the officers of the Thayer regime learned of the flight of the governor. They fled into the executive office and tendered their resignations and invoices of state property in their possession preliminary to a grand exodus. The most complete and severe surprise was that of the Thayer men, who had been one of the chief conspirators against Boyd, but he fell into line with the others and dusted. A large crowd of democrats and leading citizens of Lincoln assembled at the depot to welcome Governor Boyd and his party and he was escorted in triumph to his hotel and established in his old quarters.

At 2:10 the door of the official apartment was opened. They entered followed by the ladies that accompanied him from Omaha. Governor Thayer came out at once from his private office with his hand extended and exclaimed: "How do you do, governor?" Governor Boyd made no reply nor offered to take his hand. He spoke to him in a low tone and seemed to be pleading with him for at least recognition. He replied: "Very well. If you will not shake hands it is all right. The clerk will furnish you with an invoice of the property."

Gov. Boyd answered: "I want no invoice. I am here to take possession of the office to which I am elected."

Thayer then turned and left. Gov. Boyd then walked into the private room where the ladies were seated. They crowded then allowed to pass through and shake hands with Gov. Boyd. At the end of the public reception the several state officers in a body gathered in a private office and paid their respects to the new governor and were presented to his family.

AGAINST FREE COINAGE.

The Celebrated Silver Brick Case Decided By the Supreme Court.

WASHINGTON, Feb. 8.—The supreme court has denied the writ of mandamus in the celebrated silver brick case to compel the secretary of the treasury to issue silver dollars. All silver dollars issued by the treasury since the decision presented at United States mints. The decision is construed by those interested to be a blow against the free coinage of silver.

MET A FIERY FATE.

Hotel Royal, New York's Well-Known and Popular Resort, Destroyed by Fire.

The 'Doomed Building Burned Like Tinder and a Terrible Loss of Life Results.

Already Twelve Bodies Have Been Removed and the List of Dead Increases.

NEW YORK, Feb. 8.—A disaster paralleling in horror, and probably exceeding in loss of life, the terrible occurrence at Park Place, the remembrance of which is fresh in the public mind occurred in this city yesterday. The Hotel Royal at Fortieth street and Sixth avenue, was burned to the ground and a number of people were burned to death, many suffocated by smoke and others crushed to death in the ruins.

The building was composed of several old structures, all amalgamated into the Hotel Royal several years ago. In 15 minutes the whole of the 6-story structure was ablaze, flames shot out of every window in the front of the house and people in the street could see persons being hurled from the top of the building. A moment later another man leaped out of the windows to the sidewalk and was gathered up unconscious, burned, maimed and mangled, by the firemen and carried to places of safety. The most heroic efforts of the firemen were impotent against the devouring element.

Harrowing scenes were witnessed by those who were assembled in front of the burning hotel. One unknown man sprang from a window on the third floor and was dashed to death on the sidewalk below before the horrified eyes of the spectators. This terrible scene was enacted on the Sixth avenue side of the building. A moment later another man leaped from a window on the Fortieth street side and was mangled to death on the pavement. Shortly after two women jumped from windows on the Sixth avenue side. Willing hands grasped them up, but they were dead.

At 10 o'clock this morning the eighth body was found. It was that of a man. It was lying among the debris in the cellar of the hotel. Besides the three taken out this morning five others have been recovered, those of H. C. Levy and two other men and two women, the last four unidentified. The bodies of many others may lie hidden in the mass of steaming wreckage which chokes up the wide space between the blackened and disfigured walls.

From a careful investigation of the hotel register and the journal which was furnished by Night Clerk Underwood, the number of persons in the building when the fire broke out was 152. Of these, eight are known to be dead. Fifty-one were rescued by the firemen, assisted by citizens before the wall collapsed, and 61 are still missing.

Later—Four more bodies have been recovered by the firemen, but cannot as yet be taken from the ruins on account of the heavy timbers lying over them. Work was suspended at 10:30 while some dangerous walls were pulled down. A few minutes later the body of a man was taken out. It was charred beyond recognition. How many charred and mangled bodies are still buried beneath the ruins is a question of horrible uncertainty.

McELVAINE ELECTROCUTED.

Goes to His Death Unflinchingly and Says "Let Her Go."

SING, N. Y., Feb. 8.—McElvaine passed his last Sunday with the quiet that indicates resignation. He went to his death calmly. When he was brought into the execution room he looked quickly about and then fixed his eyes on the chair. At a sign from the chief keeper he walked over to it unflinchingly and sat down. He was strapped and strapped was adjusted he grew excited and shouted: "Let her go!" Instantly the current of 1700 volts was turned on and McElvaine was silenced. Sounds resembling groans came from the victims lips but the physicians state that the man was dead and the groans were reflex movements of the chest muscles.

CITY BRIEFS.

A marriage license has been issued to Magnus Bean and Ellen Figland.

The "Hotel Mesaba," at Mesaba, is this day opened for the accommodation of guests. Stage line connecting with every train running to "Beavie," "Cincinnati," "Chicago" and Iron Mountain mines daily. W. N. Pollock, manager.

Rev. C. C. Salter gives a magic lantern exhibition this evening at the Second Presbyterian church on the subject "The Bay of Naples and Pompeii." This is the first of a series of four Monday evening entertainments. Rev. G. H. Craig, pastor of the Grace M. E. church, gives the second of the series on Feb. 15. Tickets for the four are only 50 cents and the proceeds are for the benefit of Bethany chapel.

The new chorus choir at the First Methodist church, under Professor Myers, rendered an excellent musical program yesterday. The choir consists of well-trained voices with the parts well balanced as follows: Sopranos—Mrs. Segog, Miss Brown, Miss Wiggins, Miss White, Misses Edith and Amy Scovill, Mrs. Redmond and Mrs. Jewell; alto—Miss Temple, Miss Feetham, Miss Graham and Miss Mars; tenors—Messrs. Jewell, Heppert, Starkey, Jones, Thompson and Kelly; basses—Messrs. Gray, Cable, Shannon and Messer. Miss Kidd is organist. Mr. Cowen pianist. Mr. Willard double bass. Mr. MacLeod violinist and Mr. Borrow cornetist.

Among the numerous entertainments of the week will be a lecture tonight by Rev. C. C. Salter, at the church, on the subject "The Bay of Naples and Pompeii." The second Presbyterian church, musical and dramatic entertainment Thursday evening at Cedarvale Association. The celebration of Lincoln's birthday by the Sons of Veterans Friday night; the lecture in the High school course by Rev. Samuel Friday night; the fourth in the Endion course, being a defense of Shakespeare, by J. A. Bede, also Friday night. Tickets for the lecture by the Lyceum Saturday night.

"THE MONKEY AND THE PARROT."

How Time Is Pleasantly Passed in the Mansion of the Hurleys.

There has been nothing funnier for months in the police court than an airing of the family difficulties of the Hurleys, which took place this morning. It was only a simple case of assault, but a Gillette farce would not be in the same class with it for fun. The complaint stated that on Saturday Thomas Hurley did assault his wife contrary to the statute.

Mrs. Hurley was the only witness for the prosecution, but she was enough. She is an Irish woman of the old school, with a rich, mellow brogue you could cut with a knife and her tale of woe was extremely funny. She went on the stand in a very fearful condition and used her handkerchief with great effect as she related how Hurley had "faced her with his fist" and tried to hit her with a bowl and succeeded because she could not reach the stove poker in time to throw it at him first. But her own testimony was not a circumstance compared to her running comments on that of her husband. He apparently told a straightforward story of the difficulty, while his wife sobbed for a few minutes and then began to laugh as she glanced at the court officer. But when she denied her statements, down she went on her knees in the court room and in an audible tone began to pray for her perjured soul. A threat to lock her up for contempt had no effect. She was worse than an alliance politician. Nothing was so amusing as the unfortunate janitor with fists and nails. Only Frank Horgan saved him from being transformed into a railroad map with cuts drawn to scale. A threat of another fine was tried by the judge but without effect and the volley of picturesque comment went as long as the trial lasted.

The exhibition given by Mrs. Hurley convinced the judge that if Mr. Hurley did not commit an assault he had good reason to do so. The defendant was discharged, and Mrs. Hurley, still followed by a string of original remarks, was removed from the court room.

IS IT CASSADY?

The Body Washed Ashore on Park Point Recognized by Mrs. Jackson.

A clue was found this morning regarding the body washed ashore on Park Point yesterday morning which will probably lead to the identification.

Yesterday morning Arthur Murray saw something tossing about in the waves amid the broken ice and investigation showed it to be the body of a man, apparently a laborer about 55 years old. The corner was notified and the body removed to Durkan's morgue. It was at first supposed to be that of the captain of the May Flower who was drowned last June off Lester river, but many who had known the captain failed to identify it.

This morning a Mrs. Jackson came to the morgue and identified the body as that of James Cassidy who has been missing since early in the fall.

Just before his disappearance Cassidy had been drinking very hard and was last seen at the Lake avenue saloon. The body found corresponded with her description of the missing man, but her identification was not positive. Cassidy was a stone mason and has a son living in the city. The latter could not be found this morning and the body will be held to see if he will be able to recognize it. It is not probable that an inquest will be held.

The Merchants' Banquet.

The Northwest Trade, Feb. 6, says of the banquet to be held here: "The Merchants' union, of Duluth, will give their annual banquet at the Brighton in that city, Wednesday evening, Feb. 10, when an address of welcome will be made by Rev. Geo. H. Kemp, and other speeches by Hon. L. E. West, Hon. Page Morris and President Fred Lorenz, of the Minneapolis Retail Grocers association. A very urgent letter, most complimentary in its terms, has been sent to Mr. Lorenz, asking him to be present, and it is now probable that he will be able to accept the invitation." George S. Ostrom, of Reed, Murdoch & Fisher, Chicago, is also expected to be present.

"That Girl From Mexico."

Mr. Gordon's comedy, "That Girl From Mexico," which appears at the Temple tonight, is built upon entirely new and original lines, and his methods of humor, while never over boisterous, includes a running foil of repartee and a continuous provision of ludicrous situations, which command unlimited laughter and approbation. The first act is played entirely by male performers, and takes place in the Alibi club, New York city. In the second and third acts, the action transpires in Mr. Smythe's apartments in the Burnham.

"Tonight's Council Meeting." Apparently there is very little of an unusual nature to come up at tonight's council meeting. The council may, if it so desires, canvas the vote of the late municipal election, and will probably do so. The matter of the subway franchise ordinance also comes up for disposition. Outside of these matters, the business will be routine.

Are "You in the Know?"

"In it" as a slang phrase is out of date and if you want to be right up with the procession you must say "in the know." It is the very latest and is heard everywhere in the East. It only reached Duluth this morning but is already current on the street, and "he is in the know" is the proper compliment of the day.

For Sale.

A good paying and well-established business in the heart of the city. Takes but a little money to secure it. Address for a few days E. care Herald.

Few Shall be Chosen.

On Tuesday the democratic city committee will meet to decide what applicants shall be added to secure positions under the new administration. There is already a long list of applicants. The appointees for chief of police and for the mayor's private secretary are said to have been already decided upon.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb.
8.—The storm which was centered over Kansas
Saturday moved northeast, passing south of
this section about midnight, and over Lake
Superior. It is followed by an area of high
pressure with a slight cold wave, and was ac-
companied by light snow in nearly all sec-
tions.

The lowest temperature this morning was 125
below zero at Prince Albert, N. W. T. It was
22 below at Moorhead, and 62 below at Huron,
S. D., and zero at Winnipeg, Pierre and North
Platte, Neb. The highest was 30° at Cleve-
land.

The highest temperature here yesterday was
25 degrees, the lowest last night 15 degrees. The
total amount of precipitation in the form of
snow, rain and sleet from Saturday morning to
this morning was .03 inch.

DULUTH, Feb. 7.—Local forecast for Duluth
and vicinity for twenty-four hours ending at 2 p.
m. Feb. 8: Fair Monday and Tuesday; colder;
northerly winds.

B. H. BROWN,
Observer.

WASHINGTON, Feb. 8.—For Michigan and
Wisconsin: Colder; northerly winds and
generally fair weather, except during a snow
storm along the lake shore; colder and fair Tuesday.
For Minnesota and the Dakotas: Continued
cold and fair weather; winds generally west-
erly.

THE PASSING OF THE PLUMED KNIGHT.

The letter of Secretary James G.
Blaine to Chairman J. S. Clarkson, of the
national republican committee, with-
drawing from the field as a possible can-
didate for the presidency was not unex-
pected by those acquainted with his con-
dition and in touch with national affairs.

Mr. Blaine's health is not such as to
warrant him in entering upon a presi-
dential campaign, and it is hardly prob-
able that if nominated he would live to
see the White House. If, however, he
leads a quiet life he may be spared to
his party and his country for several
years. The fear of his sudden taking
off in the midst of a campaign or in the
strain that is sure to follow an election,
would very seriously detract from the
enthusiasm of the contest and hold his
admirers in constant readiness for
a transformation scene in which they
would become a funeral procession.

The sincere friends of the great sec-
retary will congratulate him on the wis-
dom of his action, however much they
may regret the necessity of such a
course and however reluctant they may
be to look elsewhere for their candidate.
From '76 till '92 he has been the Ameri-
can champion of his party and even now
in his retirement he retains first place in
its affections. But his palmy days are
over and his magnetic powers have in
great measure passed away. His letter
of withdrawal means his farewell to the
national arena, and the country at last
and most reluctantly beholds the pass-
ing of the Plumed Knight.

President Harrison, who has hereto-
fore stood nine chances in ten of a re-
nomination is now without a competitor
in the field and the Minneapolis conven-
tion will merely meet and go through the
motions. Several states will be of course
as a matter of form and courtesy pre-
sent the names of their favorite sons,
but there will be no organized opposi-
tion to the President and he will be the
convention's choice, barring death or
something outside of the usual course of
human happenings. It is most likely,
too, that Vice President Morton will be
named again and that the Ben and Levi
ticket will be reaffirmed when the dele-
gates gather by the river. They are their
own natural successors, and except with
Mr. Blaine in vigorous health it is the
strongest party could put up.
The convention will now have
much of its interest and the old ticket
will be run up by acclamation. There is
in it all one advantage that the party
will by common consent be united and
from this time forward will steadily solidi-
fy itself.

MAKE IT A HUNDRED THOUSAND.

It will be no small item to the tax pay-
ers of Duluth if the new administration
can reduce the total cost of the several
departments a hundred thousand dollars
a year without in any way affecting their
efficiency. It is probable that such a re-
sult can be attained or approximated.
What our city needs is a careful business
administration, demanding value re-
ceived for every dollar paid out. The
pruning knife can be used to good effect
in several places, the police and fire de-
partments being especially de-
serving of attention. The bar-
nacles should be scraped off
sine die, and all ornamental
hangers-on and professional nap suckers
given the grand march. And in making
up the jewels of the new administration
the greatest care should be exercised in
all selections for members of the board
of public works. This board is an im-
portant adjunct of the city government,
and the wisdom of its action touches the
pocket nerve of the people. Economy
and efficiency should be insisted on in
every department to the end that the
burden of government may be light and
our city get on to good footing for the future.

The Minnesota state democratic com-
mittee will meet on the 16th of February
to call a state convention for the choice
of delegates to the national convention
at Chicago. It is alleged that the North
Star democratic organization is trying to
work up sentiment for a Hill deflection
while the members of the state commit-
tee are for Cleveland. It is no reflection
on David that Minnesota democrats are
overwhelmingly for Grover. Mr. Cleve-

land represents a definite tariff principle,
has the fullest confidence of the whole
country, and with him as their leader
the Northwestern democrats would
make a rousing and aggressive cam-
paign, while with a three-cornered fight
they might possibly secure the electoral
vote of Minnesota.

MONEY GETTING EASY.

The Herald has several times noted
the steady improvement in the money
markets of the East. All this was pro-
phesied several months ago, but its
realization is none the less gratifying
because it was expected. Lewis G.
Tewksbury's Daily Financial Review, of
New York, for February 4, adds the fol-
lowing further assurance that the whole
country is again on the up grade:

It was generally conceded that the buying
of the dividend paying stocks, particularly
those that yield anything above 5 per cent on par, was
caused principally on account of the cheapness
of money. An expert banker, in discussing
the situation, said to us last night: "As the state-
ment given out on Saturday last by the clearing
house shows, the associated banks of this city
instead of holding surplus reserves equal to 25
per cent, have, in truth, 50 per cent or more, and
money is a greater drag than it has been at any
time within the past six years. Under the cir-
cumstances, it is not strange that the better
class of dividend paying shares should be in
"kicker demand." The present speculation does
not need the impetus of encouraging rumors in
order to get sensible people on the bull side of
the market. The talk of increased dividends,
the cutting of melons and prospective con-
sultations with nightingale powers, may help a
speculation to being about a temporary boom,
but they will not deceive the legitimate in-
vestor who, more than satisfied to get a 5 or 6 per
cent return on his investment, is content.

This is but evidence to the fact that
solid business centers like Duluth will
have no further trouble in supplying
every need of their rapid growth. The
last year has been a severe ordeal to
many places, but the corners have been
safely turned, and with an easy money
market this season every projected en-
terprise will be carried out. The pres-
ent year, in spite of a presidential con-
test to be settled, promises most wonder-
ful developments for Duluth. The new
iron diggings alone are glory enough for
one year, but they are only a fraction of
what the season holds in store for us.

THE CITY CLERKSHIP.

The office of city clerk which is one
of the most important within the gift of
the new council, is of a purely clerical
character to the board of aldermen, and
should be filled without regard to poli-
tics or party affiliation. The person as-
piring to this position should be compe-
tent and obliging, and possess the neces-
sary qualifications for its requirements.
That this is the view entertained by the
council, when in the past it was strongly
opposed to the appointment of a clerk,
is evidenced by the fact that the posi-
tion had always been filled by a
democrat until the past year. The in-
cumbent, Mr. Frank Burke, Jr., has in
the opinion of The Herald, been an effi-
cient officer, has had the position only one
year and should have no opposition to
re-election. From present indications
he will receive the unanimous endorse-
ment of the 12 aldermen. This is as it
should be—efficiency should prove its
own reward.

The evening paper is the paper of the
future. It gives the news of the day it
is published; and it reaches the home at
the time the average man and woman
have the most leisure. As an adver-
tising medium the evening paper is par
excellence, for it is the paper that holds
the fort at the fireside and is read by the
whole family circle. It is truly and liter-
ally the all-around paper. The Herald is
not only in the band wagon, but it is
make room for its patrons it hangs its
feet over the dashboard.

Hon. W. S. Pattee, of the State Uni-
versity law department, maintained the
high standard of the High school lecture
course in his discussion of the "First
Principles of the Republic" in the Ly-
ceum Saturday night. The subject
broadened out as he progressed and
when he got through he left the land of
Uncle Sam "bounded on the North by the
aurora borealis, on the South by the
precession of the equinox, on the East
by primeval chaos, and on the West by
the Day of Judgment."

The Herald hopes there will be no
rush of statesmen for places under the
new administration. We know how very
eager many will be to save the country,
and we fully sympathize with the agree-
able emotion, but the administration has
a reputation at stake as well as a coun-
try to save and should be treated with
some consideration.

The Second Presbyterian church, not
to let the ansalpine region be outdone
by the uptown folks, opens a lecture
course tonight, and thus the intellectual
activity of Duluth is pleasingly aug-
mented. This winter has proved pro-
lific of cultured thought. The good up-
lifting work goes on. We are building a
city.

The influence of a man like Spurgeon
whose life has been an inspiration to the
whole world, is beyond all measure. The
eulogies spoken yesterday around the
earth were but a faint refrain of the wel-
come given by angelic hosts.

Judge Page Morris is to be congrat-
ulated on his prospective return to the
practice of law. There are some things
better than being perched on a bench.
It is understood he will join forces with
D. H. Twomey.

A gentleman whose name was recent-
ly used in vain in one of our morning
contemporaries, broke a finger the other
night by striking the reportorial fend on
the gall.

The third term of the Hardy school

leaves the Spaulding house at 8:12 a. m.,
passing the station at Twelfth avenue
east and Fourth street at 8:30.

CITY BAND CONCERT.

A Benefit Concert Which Has Been Ar-
ranged for This Organization.

There is hardly an organization in the
city which is more deserving of encour-
agement and support than the city band.
Recognizing this fact the chamber of
commerce and the jobbers' union have
been endeavoring to arrange for a bene-
fit concert for them and have also se-
cured the co-operation of the city coun-
cil. The committee is made up of John
Panton, for the chamber of commerce;
F. F. Melver, of the jobbers' union, and
A. C. Weiss, of the council. The date
selected is Feb. 23, and the place, Tem-
ple opera. The concert will be one de-
serving of support, not only because of
the worthy object, but for its artistic ex-
cellence as well. The program will be
as follows:

PART I.
Overture—"Raymond".....A. Thomas
Dance—"Hungarian".....M. C. Mayfield
Soprano Solo—"Hail".....M. C. Mayfield
Trio—"Nacht und Morgen".....Robert
Morse, Transveter, Toning and Flauto.

Tar and Feather Fund.

To the editor of The Herald:
You suggest that the Duluth chappie
who is confederated with the successors
to the Pretence swindle to help catch
suckers for their net should be given
free "rail road transportation out of
town. Good. Now it is customary on
such occasions to furnish a tar overcoat,
with feather trimmings, to the individual
honored. I suggest, therefore, that you
open a "tar and feather fund," and for
that purpose I enclose one nickel. He is
not a very large person, chappie isn't,
and so it will not cost over \$10 to paint
him his true color.

A NON-SUCKER.

The Kingdom of Making-Believe.

How happy the people from morning till eve
Who dwell in the kingdom of Making-Believe!

Winter conditions at dawn may arise.
They see not the burden of care multiplied.

When April with peeping shy sheds frequent
tears,
They see only smiles which alternate frequent
tears.

When summer with breath of the desert flames
by,
They dream of the autumn with cooling fumes
of life.

The trees in November like skeletons swayed
To them are forever in blossoms arrayed.

They heed not the winter, its winds nor its
fury,
Each day brings them nearer the lilac and rose.

If fortune to them has its richness denied,
They have not the burden of care multiplied.

They may not magnate his ease nor his wealth,
Believing that labor brings treasure of health.

They follow no fashions excessive, and hence
They follow the ways and their wearings with
ease.

They murmur at nothing; their "fate" Duty
tells,
They leave all vain grumbling to somebody
else.

It costs them no more to imagine they hold
Landed of toy London, a gem of rare gold.

No troubles dismay them, no dangers afright;
They see o'er the storm-cloud the rainbow of
light.

How happy the people, one well may guess,
Who dwell in the kingdom of Making-Believe!

Senator Plumb and the Bushwhackers.

Senator Plumb during the war was

THE DISTRICT COURT

Mrs. Robertson Sues Andrew Marshall to Recover \$15,000 For Personal Damages.

Judge Start Arrives This Morning and is Holding Court; Judge Baxter Arrives Tomorrow.

Lohty, the Only Alleged Criminal to be Tried This Term is Arraigned.

A suit of a rather unusual nature and for very heavy damages, is being tried at the district court today before Judge Ensign. The case is that of Toline Robertson vs. Andrew Marshall. The plaintiff alleges that on the 20th day of Sept., 1921, the defendant came to the house of the plaintiff and being in a drunken state attempted to get up a quarrel with the plaintiff's husband. She was plainly evident was in a delicate condition but in spite of this when she stepped between the two men to prevent any trouble, the defendant struck her a severe blow in the stomach which resulted in serious injury. No criminal action was ever begun and she sues now to recover by civil process the sum of \$15,000. The suit is not one entirely unique but is one of the like which is seldom seen. Marshall, the defendant, is a well-to-do man and entirely able to pay any judgment which may be rendered against him. Before Judge Ensign the case of Herman Boer vs. M. A. Woodworth was also taken up and judgment for the plaintiff for \$47 rendered by default.

The relief looked for by Judge Ensign came to hand this morning and Judge Start is now holding court in room No. 1. The first case taken up was Kellough vs. Wolf in which the judgment prayed was granted the plaintiff after the evidence was submitted. In Hayes vs. Toomey et al there was no appearance on the part of the defense and judgment was rendered by default. Kellough vs. Hazen et al was continued by stipulation.

Richard Stephens vs. A. C. Batchelor is now on trial. The allegations of the complaint in this case are that the defendant, acting as agent, sold for the plaintiff two lots of Duluth real estate for \$1000, but fraudulently represented he had received only \$100 and pocketed the balance. The suit is to recover this amount.

Lohty, the Mesaba man held for assault, was arraigned this morning and a plea of not guilty entered for him. This is the only criminal case expected to come up this term, though there is a possibility of another, which has not yet been made public.

Judge Baxter, of Fergus Falls, will be here tomorrow, and will hold court in the room now occupied by Judge Ensign. The latter will attend to work the balance of the day and which he has been unable to dispose of.

New York—Monday 15½¢ per cent. The stock market opened active. Reading was the feature and in the first half hour the trading in it was enormous, 10,000 shares changing hands. Its price climbed rapidly and advanced on almost every transaction. Although the action in the other coal shares was so marked as in Reading, the advance in them was more pronounced. The railroad stocks and the trusts were generally neglected during this large movement in the coals, but after the first call they became more prominent. In the hour to noon Reading gained followed by a rapid activity, and followed by the other coal stocks made a still further advance. The general market was quiet for the sum of three hundred and seventy-five shares, and interest from April 1920, 1920, and the cost of this action.

MORTGAGE SALE.

Whereas default has been made in the conditions of that certain mortgage duly executed and delivered by Julius J. Jorgensen and Lena Jorgensen, his wife to Wm. E. Richardson and Frank A. Day, bearing date the 17th day of January, 1921, and duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the 17th day of January, 1921, at 2 o'clock in the afternoon, book 5 of mortgages on page 12 and which said mortgage was duly given upon the real estate hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided and out of the money arising from such sale to retain the principal and interest which shall then be due on the said mortgage, together with all costs and charges, and also the sum of twenty-five (\$25.00) dollars as attorney's fees and pay the overplus (if any) to said mortgagee, their heirs, executors, administrators or assigns.

And, whereas, the default in said mortgage was duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the 17th day of January, 1921, at 2 o'clock in the afternoon, book 5 of mortgages on page 12 and which said mortgage was duly given upon the real estate hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided and out of the money arising from such sale to retain the principal and interest which shall then be due on the said mortgage, together with all costs and charges, and also the sum of twenty-five (\$25.00) dollars as attorney's fees and pay the overplus (if any) to said mortgagee, their heirs, executors, administrators or assigns.

Now, therefore, notice is hereby given, that by virtue of a power of sale contained in said mortgage and in the statute in such case made and provided, the said mortgage, their heirs, or assigns, do hereby give notice of the sale of the premises hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided, the said mortgage, their heirs, or assigns, do hereby give notice of the sale of the premises hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided, the said mortgage, their heirs, or assigns, do hereby give notice of the sale of the premises hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided, the said mortgage, their heirs, or assigns, do hereby give notice of the sale of the premises hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided, the said mortgage, their heirs, or assigns, do hereby give notice of the sale of the premises hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

And, whereas, it was provided and stipulated in and by said mortgage, that in default should be made in the payment of the said sum of money, or interest, or any part thereof at the time and in the manner specified in the said mortgage and notes for the payment thereof, the said mortgage, their heirs, or assigns were thereupon fully authorized and empowered to sell the said mortgaged premises at public auction and convey the same to the purchaser in fee simple agreeably to the statute in such case made and provided, the said mortgage, their heirs, or assigns, do hereby give notice of the sale of the premises hereinafter described to secure the payment of the principal sum of four hundred dollars (\$400) according to the conditions of two certain principal promissory notes described in said mortgage with interest thereon at the rate of 8 per cent per annum from date, according to conditions of three interest coupon notes attached.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb.
9.—Generally fair weather with light snow
along the lakes, reveals this morning.
A cold wave from the northwest, and now extends as far
south as Iowa, with temperature below zero.
Some of the lowest are: Minnesota 20; Wis-
consin 25; Prince Albert and St. Vincent 10; S.
Moosehead 10; St. Paul 10 and Pierre 8.
An area of low pressure is moving from the
extreme Northwest, which will soon dissipate
the cold, at least for a few days. A cold wave
may be expected to rise again by to-morrow.

The highest temperature here yesterday was
24° at 4 p. m., from which time it fell steadily
to 12° at 7 p. m., and to 10° at 9 p. m. At
7 this morning, a fall of 31° in 24 hours.

Duluth, Feb. 9.—Local forecast for Duluth,
an vicinity for twenty-four hours ending at 8 a.
m. Feb. 10: Fair; colder.

R. H. BRONSON,
Observer.

WASHINGTON, Feb. 8.—For Minnesota and
Wisconsin conditions generally favorable, with
light snow along the lakes, and fair weather to-
day; slightly warmer, and fair weather to-mor-
row.

For North Dakota: Warmer; entirely
cloudy, fair weather today; rather much wind,
cloudy weather and possibly snow Wednesday.
For North Dakota: Much warmer; southerly
wind, cloudy today.

SOCIETY OF LOYAL VOLUNTEERS.

An organization bearing the name of
"Society of Loyal Volunteers," has been
organized in Washington, D. C., and is
being pushed all over the northern states
where Union volunteers are found in
greatest number. Its purpose is to mod-
ify the present system of granting pen-
sions to soldiers by placing the whole
business upon a more reasonable and
equitable basis. The Herald is in re-
ceipt of a copy of the constitution and
prospectus of the society, together with
a circular from which the following con-
cise statement setting forth the objects
of the society is taken:

The Society of Loyal Volunteers declares
that impairment of ability to earn a support by
manual labor is a fate baneful for pensioners. The
society demands a revision of the pension laws
on the basis of impairment of earning capacity,
without regard to the method in which a sup-
port may be earned, and that no man shall be
allowed to draw a pension when, not in need, or
if he is earning a comfortable living in any pub-
lic or private capacity. For those who can not
earn a respectable living in any public or pri-
vate occupation that may be found for them,
the society demands an abundant support.
Such a pension law can not fail to meet with
the approval of every honest citizen who is
fully interested in its meaning and effect.

The government will this year pay
about \$150,000,000 for pensions, and
much of this, probably half of it, is be-
lieved to go to men who are otherwise
well provided for and are capable of
earning a livelihood as if they had never
seen the service of Uncle Sam. Others
who are very needy do not receive
enough to keep the wolf from the door,
and thus with all our national generosity
we are still very unjust. Why a man who
is worth a hundred thousand and is as
happy as a prince, and who can make
him, should care to make a shank on a
few hundred a year from the federal
treasury is quite beyond the ken of com-
mon mortals. Those who are in want
through loyalty to their country should
be amply provided for, but where such
reward does not relieve what it loses the
nature of a pension and becomes some-
thing more or less than plunder. The
new movement is inaugurated by old
soldiers of character and standing among
their fellows and promises through them
to attain important practical results.

NATIONAL REAL ESTATE CONGRESS.

The first national real estate congress
will be held in Nashville, Tenn., on Feb.
17, 18 and 19, at which representatives
from nearly every state in the Union
will be present. The movement origi-
nated with J. Mott Williams, of Nashville,
who is chairman of the executive com-
mittee having the present meeting in
charge. S. T. Johnson, of this city, has
just returned from Nashville, and
through him Mr. Mott has invited Major
M. R. Baldwin to address the congress on
behalf of Duluth. It is believed that
a little effort would secure the next
meeting for our city, and the Real Es-
tate Exchange could take hold of the
matter to good effect. The Nashville
gathering is the first of the kind ever
held, but is only the beginning of an-
nual meetings to be held hereafter. The
prominence of Duluth would make it an
easy thing to get the second meeting if
we desire. It is at least worth think-
ing of, and if such an end is deemed of
value to us, the Real Estate Exchange
should take action at once and send a
delegation to Nashville.

The vote for the regular republican

nominee for mayor this spring shows a
remarkable and most encouraging
growth from that of 1878. Two years
ago the total was 212 and this time it was
718, an increase of almost 200 per cent.
The alliance party vote fell off 20 per
cent, the democratic gain about 35
per cent, and the total vote increased 25
per cent. With the present rate of in-
crease and decrease all around the al-
liance will drop out of sight in about 1900,
at which time, and possibly sooner, the
republicans will again succeed to the
title of "We are the people" which they
so long and honorably bore, but is just
now disputed them.

The special four train of eighteen

cars which leaves the Duluth Imperial
mill tomorrow night to Boston will be a
neat little advertisement for our town as
a milling center. Duluth is steadily
climbing to the fore in every field of
action, and is soon to be the greatest

flouring center of the world. We have
now the largest single mill in existence,
and our total output will soon surpass
that of Minneapolis, which for many
years has been the marvel of the whole
country.

HIGH TARIFF ON WHEAT EXPORTS.

The Herald is in receipt of a circular
from the "Canada and Harbor Protective
Union of the State of New York," having
headquarters in New York city, in which
it is asserted that the Buffalo elevators
receive \$10.75 and New York elevators
\$11.25 per thousand bushels for handling
grain, a total extortion, it is said, of \$17
per thousand over free competition
rates. This averages \$136 for a boat
load of wheat; \$144 for corn, rye or flax-
seed; \$170 for barley, and \$255 for oats.
To a steamer with the usual three con-
sorts these charges amount to from \$510
on wheat to \$935 on oats, a very consi-
derable per cent of the boat's earnings on
a low freight rate.

We are further informed that the
Buffalo elevator pool, including twenty-
five idle elevators, declared a dividend
of 26 1/2 per cent for the season of 1891,
while several railroad elevators there
cleared over \$2000 per day for five
months. Besides these exactions the
Erie-Hudson commerce has, it is as-
serted, suffered millions of loss through
railroad control of the elevator pool at
Buffalo. Grain is thus forced to rail-
road elevators for transfer, and last year
during the recent rush at that point
the railways kept about twenty-five
storage, tower, and floating elevators
idle simply because they had no rail
connections, though these idle elevators
were built expressly for transferring
grain from lake vessels to canal boats.

With such a grip on the business at
that point the railroads practically over-
ride the constitution and impose an ex-
port duty on the cereal products of the
West. The matter is even more impor-
tant to the grain growers of this region
and the shippers of Duluth than to the
people of New York. We are therefore
pleased to see the Protective Union rip-
pling up the back and undertake the
redress of grievances that are chiefly
ours.

OUR IRON INTERESTS.

The Herald in another column gives
an editorial article from the Minneapo-
lis Tribune touching upon the Minnesota
iron region in general and the Mesaba
range in particular. Tomorrow we will
give a three-column article from Assis-
tant State Geologist Horace V. Winchell
on the same subject, with an accom-
panying map. This article will prove
of particular interest to iron men and
of very general interest to Duluth.

THE FINANCIAL STATEMENT.

The Herald furnishes its readers to-
night with the annual financial state-
ment of St. Louis county. We hope all
good citizens will peruse it carefully to
the end that Auditor La Vaquer's pain-
staking efforts may not be in vain. He
uses many figures of speech, but other-
wise his composition is above criticism.

The Minnesota Editors hold their
twenty-fifth annual meeting in St. Paul
on Wednesday and Thursday of this
week. Wednesday evening there will
be a social gathering at the Windsor,
and when the banquet is over dulcet
notes will be heard and there will be
tripping of the light fantastic. The
boys know how to have a good time,
and their fellow toilers in St. Paul give them
ever a most cordial welcome. It will be
a pleasure to all who can mingle with
them.

Our friend, would-be Governor Thayer,
climbed out of his high chair at Lincoln
yesterday afternoon and gave Governor
Boyd a turn at public affairs. Thayer
meant to serve his party well, but is
quite lacking in political wisdom and his
action will in some measure handicap
the republicans of that state in the next
election. A gracious surrender of power
on a verdict of the people is a thing
that Americans of all parties must in-
stinctively resist.

There is no wonder Buffalo kicks
against any new outlet to the sea while
she has such a snap on the grain hand-
ling business. If the reports that come
to us are true, millions of dollars are
being extorted from our people every year
by the elevator pool of that city under
the thumb of the great railway corpora-
tions of the Empire state which desire
to crush out every advantage arising
from the cheap canal route to the Hud-
son.

Don't be too quick to believe that the
Louisiana lottery sharks have surren-
dered. They are still continuing their
red-hot campaign for governor, and it is
more than probable the statement given
to the public was for political effect. If
by such means they could weaken the
opposition they would in no way be em-
barrassed by a falsehood.

Now we shall be pleased to hear what
Matthew Stanley and other leaders who
have been opposing lien with all their
might will have to say since Harrison is
his sure successor for the presiden-
tial nomination.

St. Louis will strive to compete with
the lakes by establishing a line of whale-
back vessels between the end of her big
bridge and Liverpool. Such the inven-
tions of our Northland blesses the
whole world.

The official count of the recent vote
for mayor reduces Joe Mannheim's total
from 62 to 56. This will be most grati-
fying to those who wish to believe that
Duluth people as a rule have good
horse sense.

St. Paul and Minneapolis are to have
an electric belt line connection, the dia-
gram of which, as given in the Pioneer
Press, looks like a side view of a new
health corset.

John A. Morris promises are like his
lottery ticket, and a real loser. In-
spite of his statement to the contrary,
the Louisiana octopus will continue to
octope.

The New York democracy is trying to split
itself up into two camps, with two leaders
and only one stomach. Each faction wants to taste
the spoils of office and is perfectly willing the
other should have the holier one.

Superior is trying to get a customs district
of her own so that instead of being a suburb of
Duluth she can become a sub-head of naviga-
tion.

Minnesota's Iron Resources.

(Minneapolis Tribune editorial, Feb. 6.)
The total value of iron ore mined in
the United States in the last census year
was \$37,765,526, of which nearly \$30,000,000,
or about 60 per cent, was mined in
the Lake Superior region. In 1880 Min-
nesota iron was not mentioned in the
census. In 1890 Minnesota ranked as
the fifth state in quantity of ore mined,
and in 1891 she ranked fourth, with a value
of \$2,454,410. But during the two years
of the census the value of Minnesota's
iron ore exceeded that of its two
great competitors, thus placing Min-
nesota in the second rank, next to Michi-
gan.

In making these comparisons it should
be borne in mind that Minnesota's iron
has furnished but just one-tenth of the
supply recently as 1885. Minnesota was known
to the world as strictly an agricultural
state, and the great credit already made
is the work practically of only two
mines, after only six years' de-
velopment for one and three years, for
the other. In the census of New York
and Pennsylvania, on the other hand, 42
and 108 mines, respectively, contributed
to the result, after developing for a gen-
eration or more. The much finer quality
of the Minnesota ore enables it to drive
much of the Eastern and Southern ore
out of the market. The ore from the
Minnesota mine at Tower is said by
competent authority to average higher
in quality than that of any other mine
known; while Minnesota's second mine,
the Chandler, at Ely, has broken the
record for the quantity of product in the
time worked.

In Thursday's Tribune Mr. H. V. Win-
chell speaks of the development of a
second and a still more promising iron
range, the Mesaba, situated 25 miles
south of the Vermilion which hitherto
has furnished Minnesota's iron ore. The
horizontal ore bed appears to average
about 40 feet in thickness; one company
has staked out a tract of 150 acres, the
immense total of 720,000 is in sight. This
ore is of good quality and so soft that it
can be mined with a shovel at the phenom-
enally low cost of only 50 cents per ton.
At that figure the mines of the new Mes-
aba range would be able to throw most
of the mines of the East out of business.
But it is not, and should not be, the in-
tention to continue the shipment of Min-
nesota iron ore eastward for the enrich-
ment of Illinois, Pennsylvania and Ohio
furnaces and foundries. Duluth already
has commenced smelting ore in her new
blast furnace. Superior is ready to
turn the pig into Bessemer steel;
and Minneapolis is prepared to
convert the pig into iron and steel.
Coal is brought to Duluth
in winter barges, at a freight of
about 10 cents per ton. The
problem of manufacturing Minnesota
iron into Minnesota pig iron and
Bessemer steel is therefore solved.
Railway branches and feeders are al-
ready being projected into the newly-
explored region, and possibly before the
end of the year the Mesaba will be ver-
ifying its iron output to that of the Ver-
million. The problem is now in sight.
Long sleep how good it is.

A Cunning Blue Jay.

Among the birds which my children
raised this year is one which gives us
more pleasure than I ever expected. It
is a blue jay, and he is the most mis-
planned fellow you can think of. I had
to clip his wings because he would not
stay in his cage, but he likes to hop and
flutter about the house. He is not afraid
of the dogs, will hop around and about
them, sit on the head of a big blood-
hound and yell at the top of his voice
just for mischief. He defies all the
chickens if they try to take some food
away from him. I suspect this terrible
war cry scared them.

He will sit on our hands and shoulders
and for food, but as soon as his ap-
petite is satisfied he takes what is some-
offered him and hides it away in some
nook. Sometimes he will put it down in
his nest, or under the eaves, or in his
outgoing shirt. Water he likes exceed-
ingly well and shows signs of disgust if
without his regular bath; and he will
jump in when the dishpan is filled with
fresh, cool liquid—drink, dive, splutter
and yell for joy. Then he goes to the
bath tub and lies down and the cold
side first, spreading the opposite wing,
then he turns over to spread and dry the
other side. He will also take dry sun
baths in the same manner.

A Lost Summer.

(Mrs. Eubank Elliot Biers.)
Has any one seen a lost summer?
Strayed, stolen, or otherwise gone,
First noticed when the leaves of September,
Turned, shivered in a frosty grave law?
And now she has hidden in fiddle
Jewels, the low-lying briar leaves,
Has any one seen a lost summer
About with the hatched cornucopia?

The End.

(Winthrop Church, in Munsey's Magazine.)
The play is done—the curtain falls—
Hero and villain trade their last words.
The fish seems change to smoky walls;
The lovers don't forget their hearts.

And so it is with life—a play.

Who knows but as the mortals prey
The dust like change and error
That speak some tale of awful agony.

Tragedies.

(Richard E. Burton.)
Two kinds there are—she one pathetic, bold.
A murder, may be, heritable to see,
Lives lost by fire or flood, but bodies cold
That speak some tale of awful agony.

is reported much better.

Mrs. H. D. Hall, who was dangerously
sick, is now convalescent.

E. O. Ballard, manager for the com-
mission house of Peaslee & Co., has re-
signed.

C. J. Birch, who has been suffering
with a dislocation of the interarticular
fibro-cartilage of the knee, is again able
to move around.

The second company of militia at
this place has secured the requisite num-
ber of members and will probably muster
in the latter part of the week.

Gospel meetings will be held in the
baptist church Wednesday, Thursday
and Friday evenings. Rev. G. H. Mc-
Clelland, of Duluth, will preach every
evening.

George Krollier will erect a handsome
3-story brick block in the near future on
the corner of Central avenue and Third
street north, and it is rumored that the
block will be built this spring on the
corner of Grand and Central avenues.

Company G held its first meeting last
evening since the muster in and the fol-
lowing officers were elected: First lieu-
tenant, Dr. A. Forin; second lieutenant,
H. P. Smith; first sergeant, Wm. Sum-
merville; second sergeant, L. K. Estor-
brook; third sergeant, L. S. Newman;
fourth sergeant, E. M. McCormick; fifth
sergeant, C. H. Reeves; the corporals
were Wm. Birch, A. A. Smith, L. A. Fau-
ley, C. F. Thorpe, W. Clarkson and J. O.
Hancock. S. S. Williamson is captain
and the company starts out with a good
lot of men, well officered, and there is
no reason why it should not prove a suc-
cess and thus gain new honors for the
city.

At the council meeting last evening an
ordinance was introduced by Council-
man Hall granting the Duluth, Mesaba
& Northern Railway company the right
to build and operate lines of railway
between Duluth and Duluth railroad
down Fond du Lac avenue to the dock
line in St. Louis bay; upon motion of
Councilman Maltz, seconded by McCor-
mick, put upon its first reading and will
come up again next Monday for final
passage. Bills to the amount of \$1000
were also introduced. Bids for im-
provement of Fourth avenue were opened
and E. F. Mitchell the lowest bidder re-
ceived the contract. Bids for im-

WHO HAS STRUCK HER?

This is the Question the Jury is Trying to Decide in the Case of Mrs. Robertson.

Other Business Before the District Court That Was Transacted This Morning.

Judge Baxter Arrives This Morning and Goes to Work at Once on the Bench.

Matters have been decidedly active at the district court today, though nothing of a sensational nature was developed. Before Judge Ensign the entire morning was taken up with the case of Mrs. Robertson vs. Marshall. The case was given to the jury, but no verdict has yet been returned. The case, which is to recover \$15,000 for personal injuries, developed some very contradictory testimony on the part of the opposing witnesses. Only one fact seemed to be certainly established and that was that Mrs. Robertson, while in a critical condition, was struck by some one a blow which caused her great bodily injury. She and her husband swear that Marshall struck the blow. He and his witnesses testify that Robertson himself was responsible for the injury. The judge's charge was impartial and left the whole question with the jury to decide. In this case the verdict is hardly likely to be so large as the one asked. The jury in the case is made up of Messrs. J. L. Pembler, M. A. Hays, A. Miles, S. Gilman, F. E. Kennedy, Asa Duley, J. H. Crowley, Charles McMillan, A. T. Scarlet, M. Norris, S. W. Clark and R. C. Ray.

Judge Ensign will try no more cases for the present. Judge Baxter arrived this morning and will go on with the work in room 2. The first case to be taken up by him is J. K. Reddington vs. Jas. Sheridan. Judge Strat managed to get through considerable business this morning. Albert Meller vs. S. P. Crokon, a suit to recover for the damages sustained by the plaintiff by the detention of some cows belonging to him, was tried and the jury returned a verdict for the plaintiff for the sum of \$151 on a real estate contract is now on trial.

In the case of W. E. Richardson vs. The Street Railway company, the formal order was entered showing the case was settled by stipulation. This is the case which excited so much comment and which was the cause of the resignation of officials being twice fined for contempt. Hannah Hamilton vs. M. S. Hulett, a suit to recover \$151 on a real estate contract is now on trial.

THE CASES NEXT ON CALL ARE: Edward L. Bradley vs. George H. Prudden, Herman Myers, Lucius H. Whipple, and James Murphy vs. Duluth Street Railway company.

SOME PROSPECTIVE FARMERS. They Want Banking Facilities as a Result of Their Good Crops.

M. O. Hall, of the State bank, returned this morning from his trip on state and private business. He spent day or two in attendance at the meeting at Stillwater of the state prison board of managers, and after adjournment made a trip on private business over the Hastings & Dakota division of the Milwaukee road. He reports the farmers at some points as being in a very jubilant state over the pleasing results of good crops safely harvested, and he made several large sales of land at prices greatly in excess of what the property would have brought a year ago last fall. The farmers at one or two of the stations where Mr. Hall stopped, and where he has been well known for many years, were extremely anxious to have him start private banks with capital ranging from \$25,000 upwards, and in some instances offering to take stock in the institutions.

SECRETARY THOMPSON REPORTS At the Meeting of the Chamber of Commerce This Morning.

The feature of this morning's meeting of the chamber of commerce was the report of Secretary Thompson upon the results of his Washington trip, as affecting the measures in which the chamber is interested. His report was decidedly interesting and comprehensive, but covered largely the same ground as the published interviews given after his return. The business was largely routine. The secretary reported that 1500 maps had been received from the "Omaha" road showing on one side a map of the proposed forestry reserve which would be sent out as literature in the fight being made against the project. Governor Merriam acknowledged the letter of the chamber recommending City Assessor Conley for reappointment on the state board of equalization, and promised the matter careful consideration. A proposition was received from Mr. Craig, of Chicago, who published the illustrated souvenir of Duluth, offering to sell all remaining to the chamber for general distribution. No action was taken. An invitation received from C. Atkinson, chairman of the committee of arrangements for the trans-Mississippi congress, asking a delegate from Duluth was received and the matter will be considered at the next meeting. It is probable that a delegate will be sent.

The ladies of the First Baptist church will serve supper this evening for the benefit of the case of Mrs. Dolby Smith, No. 321 East Third street. Supper, including oysters, 25c.

J. F. Merriam, formerly of Merriam & Jones, of this city, will entertain a party of about 20 of Duluth's young people on Thursday evening at the West Superior hotel. Mr. and Mrs. W. B. Dixon will chaperon the party.

No word has as yet been received by the board of public works regarding a hearing before Col. Poe of the matter of the canal bridge. Col. Poe is attending a court martial case at Cleveland which may account for the delay.

Ed Bennett, a vagr, was the only prisoner before the police court this morning. He was released on suspended sentence. John McNamara, charged with being drunk and disorderly, will have a hearing this afternoon.

The "Hotel Mesaba," at Mesaba, is this day opened for the accommodation of guests. Stage line connecting with the train running to Bewah, "Cincinnati," "Chicago" and Iron Mountain mines daily. W. N. Pollock, manager.

The ladies of the Pilgrim congregational church will serve supper this evening at 6 o'clock at the parlors of the church. During the evening Dr. Ingerson, of St. Paul, and others will make addresses before the Congregational club.

City Clerk Burke is sending out notices today to the successful candidates of the election to municipal offices. They have to days to qualify and take the oath of office. Ales, in this sworn in this afternoon, the first of the new officers to do so.

The colonel of the Third regiment, into which the local company has been recently transferred, is here today. The Duluth company will be company "A" in the new regiment who carried the colors of the old company.

The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street: 10 a. m., 23; 3 p. m., 22; 6 p. m., 15; 9 p. m., 10; maximum, 23; minimum, -9; daily range, 32.

The hearing in the now celebrated case involving title to section 20 to be resumed before Register Nichols tomorrow morning at 10 o'clock. The testimony will be taken up just where it was left off at the last hearing, that of Wheeler in rebuttal. The hearings will be held in the council chamber at the city hall.

A crowded house greeted Rev. Mr. Salter at the Second Presbyterian church last night, and he gave an excellent talk along with stereoscopic views of the city of Naples and Pompeii. Rev. R. H. Craig, pastor of Grace M. E. church, gives a lecture next Monday, the second of this course of entertainments. The series promises to be very instructive, entertaining and popular.

Mrs. John Cummings is entertaining her sister, Mrs. Jones Chever, of Hamburg, Iowa, and Mrs. A. L. Fenske, at Elv.

S. T. Johnson has returned from the South, but Mrs. Johnson stopped over at Eau Claire, her old home, for a few days, before coming to Duluth.

John K. Reddington, the Washington attorney, arrived at the Spalding this morning. He is here in connection with the section "30" case.

There will be a big rush for lots at the first sale next Monday in the new town of Merritt.

No Inman Tugs. The proposition of Capt. Inman to supply the city with water from fire protection has gone over so long that it is now evident that the council committee intends to pigeon hole it. There is a decided opposition to the proposed plan and it is doubtful if it will pass the council. The question of a city fire boat is being agitated and may assume definite shape.

WORLD OF COMMERCE.

The Coal Stocks Continued the Feature of the New York Market Today, But Steadily Declined.

Dullness Prevailed in the Local Grain Market Today With a Steady Decline All Around.

Among the Henshaw Features was the Probable Passage of the Washburn Bill Which is Feared.

Dullness and slowness prevailed in the early hours of the session today with declining prices, followed by an advance of 1/4c on first sales, and a break of 1/4c on that figure about 11 a. m. on the May 1st. Cables reported that the prospects of the Austria-Hungary and French crops were very favorable. The marked bearish feature was the probable passage of the Washburn option bill, which it was predicted, would knock wheat down to 70c in Chicago and perhaps to 60c.

The clearances of wheat and flour from the four ports yesterday are considerably larger, amounting to 48,650 bus. From New York alone they reached 352,457 bus. The break continued after the noon hour until it was 1 1/2c below yesterday's close. There was some demand for track wheat at yesterday's closing figures. The drop for the day ranged from 1/4c to 1 1/2c. The close was irregular and dull with firmness in May futures and track wheat.

Cash No. 1 hard closed at 1 1/2c off at 84c. On track 8 1/2c bid. Cash No. 1 northern closed 1 1/2c off at 83c. On track 8 1/2c bid. Cash No. 3 spring closed neglected at 72c. Rejected closed at 60c, 1c off from yesterday.

February No. 1 northern closed at 84 1/2c. February No. 1 northern closed at 1 1/2c off at 83c. May No. 1 hard closed 1 1/2c off at 84 1/2c. May No. 1 northern had the most active demand, starting with sales at 80 1/2c and going down without an intermission to close at 87 1/2c bid, 1 1/2c off yesterday's close.

Millstuffs: Bran closed at 81 1/2c; middlings at 81 1/2c. Flax-seed closed dull at 91 1/2c for cash. Receipts of wheat, 47,284 bushels; flax seed, 16,680 bushels.

Cars on track, 87; last year, 19.

Largest Circulation in Duluth.

Where delivery is irregular, please
make immediate complaint at this of-
fice.

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

Communications of not over 300 words, if not
objected to, will be used. More lengthy
articles will, if space demands, have the
subject extracted. Communications not of general
interest to the public will be charged for at
regular rates. Personal communications, if
used at all, will be charged for invariably.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb.
10.—A storm of considerable energy is con-
tinuing from the west and south. Heavy rain
and snow, accompanied by gusty winds, are
expected to move south of this section today
and bring snow, followed by cold and clear
weather.

Communications have generally been in
the lower zone in the north, the lowest in 10
below zero at Winnipeg, while in the West and
Southwest it is 40 above at Denver and Helena.
Snow has fallen in nearly all sections but not
equally everywhere.

The highest point reached here yesterday was
145, the lowest last night 45.

DULUTH, Feb. 10.—Local forecast for Duluth
and vicinity for twenty-four hours ending at 8 a.
m. Feb. 11: Fair followed by snow; fair Thurs-
day; northerly wind, shifting to fair; Thursday
morning; temperature will fall about 35 by Thurs-
day morning.

The Merchants' Banquet.

Our friends, the merchants, will hold
their first banquet tonight at the
Brighton, and The Herald is pleased to
note this new comradeship among the
trade. It will be a sort of love feast in
its way, for most of the candidates in
the recent municipal election will be
there and they will all eat the same sort
of bird. Rev. George H. Kemp will open
the ball with the grand march of wel-
come, while Judge Morris will follow
suit with the Virginia reel. Judges
Powell, West, Gearhart, and Winje
are expected to give a male quartette.
Mayor Davis and Mayor-Elect d'Au-
tremont have been invited, and are ex-
pected to be present. Fred Lorenz, of
Minneapolis, and George C. Osborn, of
Chicago, will join the happy throng to
listen to the respective speeches of
suburbs of Duluth. Accompanists and so-
lists will be present, and the inaugural
services of the Merchants' Union will be
held under the most auspicious circum-
stances, beginning promptly at 8 o'clock.

The Herald sends greetings to the new

union, trusting its banquets will be many
to the end that its shadow may never
grow less.

EVER TROTTERING IN THE VAN.

The Herald prints 5000 copies today
just to gratify our friends who wish a
few extras for outside circulation. We are
always glad to do this, and in fact we
are frequently forced to do so because
of the special attention The Herald
ever gives to the living interests of Du-
luth. The article in this issue on the
iron interests of Northern Minnesota
first appeared in the Minneapolis Trib-
une, but will be none the less appre-
ciated on that account. Expert testimony
of this sort from one so well and widely
known as Mr. Winchell, showing the
riches that lie at the very portals of our
city, will awaken a new interest in iron
development and attract outside capital
to Duluth. The Herald cheerfully does
its share in the upbuilding of our city
through a revelation of its resources. Let
the good work go on.

WELCOME TO WILLIAM.

The Herald takes this opportunity to
welcome William Edgar Nye to Duluth.
We feel sure he wouldn't come unless
he were welcome, and as he is due here
Saturday we take time by the forelock
this way. He can have the freedom of
the city if he will not take it away with
him. Bill is at all times near and dear
to us, and at this writing he is truly very
nigh.

Thomas Dwyer, of Superior, who has

just returned from a sojourn on the Pa-
cific coast says the towns out there have
been boomed over much and that just
now they are, so to speak, dreaming the
time away. There is no place quite like
Duluth. We are in it from start to
finish. The happy thing is that Duluth
does not depend on booms and has
innumerable resources. The grain
fields and lake traffic alone would make
a great city here, but we have lumbering,
mining and manufacturing to multiply
our growth. Duluth is the topknot of
navigation and justly wears the tiara.

Editor Joe M. Chappel, of the Ash-
land Press, drifted into town with the

snow flakes last night and skidded
himself out into the Wisconsin woodlands
again this morning. He was here to
help the Congregational club hold a
meeting and took time this morning to
extend a cordial greeting to The Herald
staff. Joe struck Ashland a little to the
windward in the spring of '87 and has
been adjusting her jibboom ever since.
He will doubtless Press all good citizens
into the worthy cause and unfurl the
banner to the breeze.

Ex-editor and revered seer, Thomas

Emerald Hoven, doesn't want to be
chief of police under the new adminis-
tration and wouldn't take the office if
Mayor-Elect d'Autremont should tender
it to him. What Tom is laying for is
Sheriff Sharpy's job so he can manage a
newspaper without money and without
peace. T. Emerald knows a good thing
when he sees it on the half shell.

The death of John Jay Knox, which

occurred at Paterson, N. J. yesterday

afternoon, removes one of the ablest and
most successful financiers the century
has produced. He was one of the origi-
nators of the present national banking
system, and was for many years under
Grant, Hayes and Arthur, controller of
the currency, but in 1884 retired to be-
come president of the Bank of the Re-
public in New York. His opinions on
financial questions were of great weight
with his party and the public.

It is now rumored that Wananaker is
to resign and take Whitelaw Reid's job
in Paris. Clarkston is then to become
postmaster general, while Reid will do
good campaign work with the New York
Tribune. Whether Clarkston could be
chairman of the national committee of
his party in the meantime is not learned,
but with full charge of the mails and
postmasters he could circulate political
tracts in great shape.

The Herald ordered a map of the
Mesaba country to appear with the iron
article in another issue, but it didn't
arrive in time and we go to press with-
out it. Our readers will, however, find a
cut of a Presbyterian church on the
page which will, we trust, make up in re-
ligion what they lose in geography.

W. H. Burks, formerly in the news-
paper field here but for some time with
the Morning Post at South Bend, In-
diana, has tossed off the journalistic bar-
reness there and will locate in some town
that has more movement to it. After all
there's nothing quite like Duluth with
her aurora borealis back ground.

Senator Frank A. Day, of Fairmont,
contemplates coming to Duluth and
erecting a summer resort on his Park
Point property. It is his opinion, how-
ever, that there are no flies on the north
pole and that there will be no rush for
outdoor bathing in Duluth till the mer-
cury is less than six feet below zero.

The Imperial Mill flour train left on
schedule this morning for Boston with
eighteen car loads of raw material for
the staff of life. It was well decorated
with streamers that tell their tale in
such a way that while they run the
gapping crowds may read. It is a good
car for the town.

Secretary Blaine's letter is generally
accepted as meaning just what it says.
The secretary is sadly in earnest, but
men of all parties must regret he cannot
again climb into the arena and awake
the echo of a nation's plaudits.

Now that Secretary Blaine has de-
clined in favor of Ben it is time for Gov-
ernor Merriam to withdraw in favor of
Levi. Let us remember what we owe to
Israel and make this thing unanimous.

Our contemporary, the Superior Call,
justly takes pleasure in the fact that
the prominent men frequently visit that
suburb of navigation. But here in Duluth
great men abide with us.

Scarcely a week passes by that there
isn't a new club organized in Duluth.
Indeed, clubs seem to be trumps and
even the churches hold a full hand.
Everything goes.

Now that it is a common thing to take
life with electricity, what the country
needs is a duplex system so our friends
can make the round trip for one fare.

It may as well be remarked now as to
delay it any longer that if Mike Chalk
raises the Pewabic he will make his mark
in the world.

Our Superior neighbors are talking about
that happy time when they reach 50,000 or 60,000
people. If they will just cast their eyes across
the bay they will find they have it, for the reach,
for we are already here and in plain sight.

A DAKOTA man is inventing a machine for
harvesting grain with electricity. If successful
it will take but ten minutes to do a hundred
acre field up in electric shocks.

CANADIAN immigration is not a very serious un-
dertaking. All we need to do is to take the Du-
luthin on as a rider to the river and harbor bill
and let her sail in.

BLAINE is no forestry association. When he
writes a letter of declination he doesn't include
in it a national reserve. No, by Jingo, Jim is
serious.

Biliousness, constipation, torpid liver
etc., cured by Miller's Nerve and Liver
Pills, fifty doses twenty-five cents. Sam-
ples free at Max Wirth's.

Stryker, Manley & Buck's advertise-
ment on the first page is especially com-
mended to those desiring to purchase
lots in the new town of Merritt on the
Mesaba range. The town of Merritt
lies in the very heart of the greatest iron
deposit known to the world and should be
one of the best mining towns in the
country with the developments now in
progress on the above range.

The reputation of Garfield tea is en-
tirely correct, the globe orders coming in for

PRESBYTERIAN DEDICATION.

The Presbyterian Church at New Du-
luth Dedicated With Appropriate
Ceremonies.

At the dedication of the new presby-
terian church at New Duluth last night,
the house was filled to overflowing.
Seven solid loads of people were present
from Rice's Point and West Duluth,
while the people of New Duluth turned
out in a body. A deficit of \$362 was
raised or pledged at the dedication, no
personal subscription exceeding \$5. Rev. A.
H. Carver, of Lakeview, preached the
sermon, and Revs. Ringland, Brandt and
Findley, of Duluth; McClelland, of Cle-
mont; Carver, of Two Harbors, and
Jamieson, of Luverne, assisted in the
services, the pastor of the new church,
Rev. W. B. Greenshields, being master
of ceremonies. The New Duluth church
furnished abundance of excellent music.
The elders of this new church are James
McInnis and W. H. Everett. The build-
ing committee consisted of Messrs.
Everett, Kerr, Thayer and McInnis.
Preaching services are being held in the
new building every night this week.

The building, which is a pretty lar-
ge one, is situated on a lot 44 by
40 feet with pulpit recess and tower on
the east end.

The history of the Presbyterian church
at New Duluth dates back, according to
the Northern Presbyterian, to June, 1890,
when Licentiate Alex. Murray began to
hold services and continued to do so for
two months, until he left to attend the
theological seminary. Revs. T. M.
Findley and C. A. Day, of the home
mission committee of Duluth presbytery,
visited the field during the winter as also
Rev. R. T. R. F. Sonner and
others. Rev. W. B. Greenshields came
here early in May, 1891, and was the
first resident minister. August 22, 1891,
the church was fully organized with 10
members besides eight who reside at
Fond du Lac.

Minnesota's Iron Resources.
(Minneapolis Tribune editorial, Feb. 6.)
The total value of iron ore mined in
the United States in the last census year
was \$32,666,506, of which nearly \$20,000,000,
or about 60 per cent, was mined in
the Lake Superior region. The iron ore
of Minnesota was not mentioned in the
census. In 1880 Minnesota ranked as
the fifth state in value of iron ore, Pen-
sylvania and New York, which ranked re-
spectively second and third in value, and
the United States as a whole ranked fourth
in value of ore. Pennsylvania and New
York, while Minnesota followed close
after with \$2,404,149. But during the two
years that have intervened, Minnesota's
product has steadily increased, while the
yields of New York and Pennsylvania
have suffered; so that now Monday, Feb. 15,
at the office of Stryker, Manley & Buck.

For lots at low figures and easy terms,

tions for loans of \$2000 and upwards
on improved city property.

Children Cry for Pitcher's Castoria.
It is an old-fashioned notion
that medicine has to taste
bad to do any good.

Scott's Emulsion is cod-
liver oil with its fish-fat taste
lost—nothing is lost but the
taste.

This is more than a mat-
ter of comfort. Agreeable
taste is always a help to di-
gestion. A sickening taste
is always a hindrance.
There is only harm in taking
cod-liver oil unless you digest
it. Avoid the taste.

WEST DULUTH.

West Duluth office of The Herald, room 2, Sil-
vey building, where announcements etc., may
be left.

Born, to Mr. and Mrs. W. H. Hawkins,
a son.

A. Rosenberger, of St. Louis, Mo., is
looking over the city.

Mrs. C. A. Holbrook, of St. Paul, is in
the city a guest of R. P. Gogin.

D. E. Maxson and G. E. Burgess, of
St. Paul, are stopping at the Phillips.

Miss Emma Palmer, who has been
visiting friends in Knapp, Wis., has re-
turned.

Miss Ella Rice, of Cloquet, is in the
city, and will probably open a millinery
store at this place.

Dan Kief, of the water works, was
called to St. Paul last evening by the
serious illness of his father.

Mrs. R. E. Collins, wife of the bill
clerk at the St. Paul & Duluth depot,
arrived today from St. Paul.

The municipal court was busy yester-
day for the first time in several days,
the attorney charged with petty larceny
was sentenced to 15 days; R. N. Jones,

same offence, not proven guilty. James
O'Brien was out for drunkenness and
being a nuisance, suspended, and George Lee,
same offence, discharged.

The new city hall addition will be a
handsome brick structure with stone
trimmings, 20 by 60 feet and three sto-
ries high. The first floor will be used as
truck room and stables for the fire com-
pany with rooms for the police in the
rear. The council chamber and sleep-
ing rooms for the firemen will occupy
the second and third floors. The fourth
floor will be occupied as city engineer's head-
quarters. The present city hall is en-
tirely inadequate to the needs of the city
and the action of the council is a good
one in ordering this built. The village
has a fund of \$10,000 voted some two
years ago for this purpose so that the
extra expense will cut no figure with the
economists.

Lost—A small brown English water
spaniel, about eleven months old. A re-
ward of \$5 will be paid to finder upon
the return of the dog. Ed. Elston, Sil-
vey block, West Duluth.

We want applications for \$200, \$400,
\$600, \$800 and \$1,000 loans. Money on
hand and no delay.
SCOTT & OLAFSON, West Duluth.

Denver
Is a mining town. Its location, sur-
roundings, and the great mineral wealth
it has, make it one of the wonders of the world. In
rapid city building Merritt, the new town
on the Mesaba, the greatest iron deposit
yet discovered, will make a similar
record. Prepare for the sale of lots
which will occur next Monday, Feb. 15,
at the office of Stryker, Manley & Buck.

For lots at low figures and easy terms,
call on Swordling & Hickox, No. 39
Fargusson bldg.

There will be a big rush for lots at the
first sale next Monday in the new town
of Merritt.

tions for loans of \$2000 and upwards
on improved city property.

It is an old-fashioned notion
that medicine has to taste
bad to do any good.

Scott's Emulsion is cod-
liver oil with its fish-fat taste
lost—nothing is lost but the
taste.

This is more than a mat-
ter of comfort. Agreeable
taste is always a help to di-
gestion. A sickening taste
is always a hindrance.
There is only harm in taking
cod-liver oil unless you digest
it. Avoid the taste.

EXPERTS WERE MISSING

And the Section 30 Case Continued Until Their Arrival Here Tomorrow.

Expert Ewell, of Chicago, Will be the First One Put Upon the Stand.

The Regular Work of the District Court Still Goes on With Two Judges on the Bench.

The hearing in the "section 30" case was resumed this afternoon, but nothing of importance was done. About 15 attorneys were present, but the long waiters were all waiting for a chance at did not arrive and the case had to be postponed until tomorrow morning.

The taking of expert testimony regarding the cause of something from a piece of land scrip will then be resumed. The testimony is in rebuttal for Wheeler. The hearings are held in the council chamber and will begin at 10 o'clock every morning. If indications can be trusted they will be kept up until the hearing so far as the Duluth office is concerned, a patent having been issued, all parties will be ready to fight out the matter in the United States courts. The first witness who will be put on tomorrow is M. D. Ewell, of Chicago, an expert in all matters relating to handwriting.

Elsie Leslie Makes Her First Appearance in Duluth.

Elsie Leslie made her first appearance in Duluth last evening in "The Prince and the Pauper." Mark Twain's familiar story. The dramatization is a good one and the story has not been sacrificed for spectacular effects as must have been the case with a less experienced writer. The production owes its success to Elsie Leslie. In ordinary hands the piece, though rather pretty and dramatic, is a subdued way would hardly rise above the level of the common place. Elsie Leslie is after all only a little girl, though a remarkably clever one. She has not by intuition the power for finished technical effects which come only with years of experience, but she has something better, a naturalness which has not apparently been spoiled by all the petting and adoring, and, as a winning straight forwardness which is often lost with mature years. She is singularly in sympathy with her part and does it with an earnestness which is often seen when children "make pretence," but which is nearly always lost when that pretence is to be maintained to the stage. Her adaptation of her manner to the varying requirements of a dual role show that she is not only a child and not merely a child with a power to make believe.

Herbert Archer, who plays Miles Hendon, has the only other part of importance in the piece and it is in good hands where it receives an able and pleasing interpretation. He should divide with the star in some measure the credit for the success of the piece. Miss Dora Leslie, who plays the part of Elizabeth, also deserves special mention for good work. The rest of the cast is fairly good but not above the average.

"The Prince and the Pauper" was repeated at a matinee this afternoon and will be given again this evening.

A Regular Fix.
The entertainment to be given by the F. M. T. A. society tomorrow evening promises to be a success. It consists of a drama entitled "A Regular Fix," also vocal and instrumental music. The following is the cast of characters:

A reorganization has been perfected by the Great Northern Mining company. At a meeting yesterday Judge Seales, of St. Cloud, was asked to appoint directors and officers were elected as follows: Alf. Merritt, president; C. A. Gillman, vice president; and Ira J. Richardson, general manager. It is the intention to add largely to the holdings of the company in mining lands and to proceed with development at once.

It was also decided to increase the treasury stock \$100,000, same to be set apart for the purchase of desirable mineral lands and to defray the general expenses of the company.

Park Board Reorganizes.
The park board held yesterday afternoon its first meeting since the appointment of the new member, Mr. Chapin, and reorganized for the coming year. The officers elected were, Luther Mendenhall, president; B. Silverstein, vice president; and H. C. Helm, secretary. The other business transacted was routine.

Shannon-Scanlon.
The pro-cathedral was crowded this morning with the friends of the bride and groom to witness the marriage of Miss Nellie Shannon to Mr. T. C. Scanlon. The ceremony was performed by Rev. Father Corbett. The bride was attended by her sister as the bridesmaid was H. C. McMahon. The ushers were Henry Hamper and John J. Healey.

TALE OF TRUE LOVE

U. S. Senator Mitchell's Daughter,
One of America's Fairest, Weds
a French Duke.

Twice a Case of True Love, the Vary-
ing Course of Which did
not Run Smooth.

The Young Lady's Parents Discourage
the Match but Finally Relent
With Happy Results.

PARIS, Feb. 11.—The marriage of Miss Mitchell, daughter of United States Senator Mitchell, to the duke of La Rochefoucauld, descendant of an old but not notably wealthy family, was celebrated here today. Miss Mitchell was for a long time a charming favorite in Washington society and later became the belle of Paris. The wedding was attended by many notables, including Minister Reid. The wedding gifts were many and magnificent.

Washington.—The marriage of Miss Mitchell to the Duke de La Rochefoucauld is one in which the people of Washington have taken a deep interest. Ever since her debut here, several years ago she has been known as one of the handsomest of fair daughters of the national capital.

This courtship was viewed with varying degrees of interest by friends and acquaintances here and even commented on. When the young folks first began to take an interest in each other, further intimacy was discouraged by the young lady's parents—Senator and Mrs. Mitchell—who preferred that their daughter should wed an American. They were fearful, in view of the constantly increasing number of undesirable international marriages that Miss Mitchell's happiness might be jeopardized by an alliance with one of foreign birth whose tastes and inclinations, the result of generations of training, and the environment would vary so widely from her own.

The feelings of the parents were fully made known to Miss Mitchell, and a perfect understanding arrived between them. Loyal devotion to the object of her young affections, she yet gave abundant proof of strong filial love and promised that she would wed no one without their consent. Mrs. and Miss Mitchell returned to the United States about this time, the parents hoping that the daughter's affections might be withdrawn from the gallant young Frenchman.

"We kept her here three years," said the senator, "but time and distance made no impression upon her. She and the duke kept up a correspondence all the while they were separated, the cable being frequently used, and the moment proved too slow. Our opposition to the match had also another element—the attitude of the dowager duchess. She had not met my daughter during Mattie's first visit to France and earlier acquaintance with her son. A family alliance between the duke and a cousin had been planned by his mother, and until she should express a desire to have her son wed our daughter we would not consent to an engagement. Last year Mrs. Mitchell was ordered by her physician to a famous French bath, if she would regain her health and Mattie went with her. Shortly after her arrival the duke called and renewed the suit. Mattie wrote a letter stating the facts and saying: 'I will be perfectly frank with you. Frank (as she called him) has been to see me and said no question is before us. As I told you, I will marry no one without your consent. We are old enough to know our own minds, and if Frank and I may not marry each other, we have determined that we will never marry at all.'"

"It came then to be a question of my daughter's happiness and I determined no longer to be a bar thereto and to give my consent to the marriage. The duke and his bride will start on a wedding tour which will include this country, reaching here some time in the spring."

Half Brothers Fight.
BEVERLY, V. I., Feb. 11.—A bloody encounter between half brothers is reported from Kerns, a few miles from here. Abel and Hanson Vance are the names of the participants, and for a long time there has been a very bitter feeling between them. This culminated yesterday in an open conflict. Abel, who had been drinking, started for Hanson, who was chopping wood at the time, with a six-shooter and immediately opened fire. The first bullet from the pistol struck Hanson in the chest, inflicting a serious wound.

Hanson turned on his brother, desperately wounded as he was, and buried the axe which he had in his hands deep in the back of Abel's skull, nearly severing the head from the body. Abel is dying, and Hanson's condition is very precarious, internal hemorrhage having set in.

Arrested for Swindling.
NEW YORK, Feb. 11.—David Gundling, the head of the firm of Gundling & Co., jewelers, of 45 Maiden Lane, who failed recently, and lodged in Ludlow street jail charged with swindling. It is stated that the firm made large purchases of jewelry and diamonds just before its failure, but the creditors found that the goods and the books of the firm had mysteriously disappeared. It is generally believed that the firm concealed the more valuable part of its assets and an effort is to be made to find out where they are. The liabilities of the firm were \$100,000 and the assets amounted to only \$12,000.

The Elder Is All Right.
LONDON, Feb. 11.—The cargo of the Elder, of the North German Lloyd Steamship company, which went ashore on the Atherfield rocks off the Isle of Wight on Sunday night a week ago, is now almost discharged. Experts give it as their opinion, notwithstanding all reports to the contrary, that the Elder's hull is not damaged as much as was at first thought and that she can be floated when lightened by the removal of her cargo.

Working for Cleveland.
COLUMBUS, Ohio, Feb. 11.—Col. James E. Neal, of Hamilton, late democratic state executive chairman; Col. A. C. Carlisle, of Salem, and other prominent democrats met with ex-Governor Campbell here yesterday. It is rumored that the meeting had for its object the arrangement of plans to send ex-Governor Campbell as one of Ohio's delegates at large at Chicago and to secure the whole delegation for Cleveland if possible.

Found the Mayor Guilty.
PITTSBURGH, Feb. 11.—The verdict of the jury in the case of James G. Wyman, mayor of Allegheny, charged with extortion, was handed in this morning. The mayor is found guilty on two counts.

Read Professor Winchell's report on the Mesaba Range, on another page, and then go and buy a lot in the town of Merritt, the sale of which will take place on next Monday, Feb. 15. Stryker, Manley & Buck, agents, 5, 6 and 7 Duluth National Bank building.

Glendale Train Robber Captured.
SAN FRANCISCO, Feb. 11.—Marion Heidepp, one of the men who robbed an express train at Glendale, Mo., of nearly \$100,000, was captured in this city yesterday.

Chicago, Feb. 11.—James Couch, owner of the Tremont house and one of Chicago's oldest settlers, while trying to board a street car yesterday fell and a heavy truck wagon passed over the old gentleman, crushing him so badly that he will die.

DILLON'S NAME WITHDRAWN.

The McCarthyites Refuse to Vote for Him for Chairman.

LONDON, Feb. 11.—The Standard, in an article this morning, says that it is rumored that John Dillon, M. P., was proposed as leader of the majority of the Irish parliamentary party, but was withdrawn because a majority of the McCarthyites present gave it to be understood that they would not vote for him.

The Standard, continuing, intimates that Mr. John Redmond, Parnellite leader, formally declined to consider any terms which would bring about a union of the two Irish factions unless Mr. Timothy Healy, M. P., who heaped so much abuse upon the late Charles Stewart Parnell, was expelled from the McCarthyite faction.

Parnellites Organizing.
The Parnellites are preparing to pursue an aggressive and positive policy toward the government. This was determined upon at yesterday's meeting for the election of a chairman. There will be no opposition to the local government but so far as the Parnellites are concerned they are in Great Britain, but the Tories are given to understand that the measure is not a sufficient concession to the Parnellites, while the pardon of the dynamiters and other concessions are to be vigorously urged.

A BIG FIRE.
Cincinnati Again Visited by a Destructive Conflagration.

CINCINNATI, Feb. 11.—Last evening fire destroyed the large 5-story stone-front building, No. 135 Main street, occupied as an auction house by Eckel & Bernheim. Every engine in the city was called to the scene.

Loss on building will be \$60,000, insurance unknown. The building was filled with furniture and miscellaneous goods valued at \$200,000. They are largely consignments and the owners are suffering. The fire was caused by a gas leak from a stove in the basement.

The adjoining building on the north, occupied by the American Oak Leaf company, suffered less. The commercial bank on the south of the burned building was also badly damaged by water.

Well-Known Explorer Dead.
LONDON, Feb. 11.—Col. James Augustus Grant, C. B., C. S. I., the African traveler, died at Nairn, Scotland, today.

In 1860-3 Col. Grant explored the sources of the Nile in company with the late Capt. Speke. In 1878 he served with the Abyssinian expedition under Lord Napier of Magdala and was nominated commander of the Order of the Star of India for his services in that capacity. ILLUSTRIOUS DEAD

Charles H. Spurgeon, the Great Benefactor, is Laid to His Rest and His Remains.

The Final Funeral Services Attended by an Immense Throng of Mourning People.

Everywhere the Greatest Respect is Shown for the Memory of the Beloved Preacher.

LONDON, Feb. 11.—The final funeral services over the remains of the late Rev. Charles H. Spurgeon took place at 11 o'clock this morning in the Metropolitan tabernacle where the body has lain practically in state from the time it was brought to this city from Mentone, where the distinguished preacher died.

The tabernacle was packed almost to suffocation, everybody being dressed in deep mourning. The hymn, "Servant of God, Well Done," was sung in a grand manner by the immense assembly, nearly everybody joining in the singing. Secretary Harold then delivered a touching prayer for the dead, dwelling most eloquently upon the work of the deceased and the amount of good accomplished during his life.

The hymn of the day, "The Sands of Time are Sinking," a favorite hymn of the dead pastor, was then sung and Dr. Pierson eloquently eulogized the pastor, who was so well beloved by all who knew him and said, among other things, that no greater misfortune has befallen the Christian church since the death of Charles Wesley.

The funeral procession began to move from in front of the tabernacle at 1 o'clock. The hearse was followed by 40 mourning coaches to which succeeded private carriages. Immense crowds of people, the majority wearing mourning, were gathered at various points along the route of the procession to Norwood, four miles long, and nearly all shops on both sides of the way were closed. Many religious bodies were represented in the procession. Four delegates from the Salvation army occupied one carriage in the line. Everywhere the greatest respect was shown for the great dead. The sky was cloudy all day, but the weather was moderate and the temperature almost balmy.

THE WORK OF CONGRESS.
Both Houses Grinding Away on Important Legislation.

WASHINGTON, Feb. 11.—In the senate today it was voted 36 yeas to 20 nays that when the senate adjourned today it be to meet on Monday next.

A bill was reported and placed on the calendar providing for the promotion of lieutenants in the army (with amendments).

Mr. Call, of Florida, presented a resolution instructing the committee on privileges and elections to inquire whether any railroad corporation had attempted to bribe the legislature and to subsidize newspapers with a view of controlling the election of a United States senator from the state of Florida.

Mr. George, of Mississippi, introduced a bill instructing the committee on finance to report a bill requiring the issue of legal tender notes to the amount of \$10 per capita. Referred.

Mr. Morgan submitted a resolution concerning the present select committee on Nicaragua claims, of which he is chairman, jurisdiction over all private claims of citizens against foreign governments, changing the name of the committee to the committee on private claims against foreign governments.

The senate having taken up bills on the calendar, Mr. Vest asked that the bill to provide for the erection of post-offices in cities where the receipts exceed \$500 per annum be made a special order. It was made a special order for Monday week.

Mr. Vilas, by unanimous consent, called up out of order a bill to amend the statutes of the United States in relation to the coasting trade of the great lakes and vessels touching at intermediate points in the lakes to make a statement of goods delivered so as to preserve statistics of the business of those ports. The bill passed.

A bill was passed appropriating \$200,000 for a public building at Cheyenne, Wyo.

On motion of Mr. Sherman at 1:30 the senate went into executive session.

In the House.
Under the call of committees in the house the following measures were reported: Bill to limit the jurisdiction of district and circuit courts; to constitute the city of Newark, N. J., a port of immediate transportation; to pay for the state of Florida money advanced by it.

Mr. Dickerson, of Kentucky, reported a resolution from the committee on accounts for the appointment of Walter Halleck, a soldier as an assistant messenger which gave rise to debate. The resolution was lost. The house resumed consideration of the military academy appropriation bill.

Withdrawals With Blaine.
OMAHA, Neb., Feb. 11.—Hon John M. Thurston, in an interview this morning, formally declines to allow his name to be put before the convention as candidate for the vice-presidency, owing to Blaine's withdrawal. He predicts that Harrison will be the nominee and says it will be a stubborn fight, and fears that the alliance is strong enough to cause republican defeat.

BLAINE'S FUTURE.

It is a Much Discussed Theme Among Politicians.

WASHINGTON, D. C., Feb. 11.—Blaine's future is still an interesting theme, though he is out of the list of presidential possibilities. For some months the members of the cabinet and a few persons very close to Mr. Blaine have been well aware of his condition, and recognizing it, have treated and humored him like a child. They have seen the once brilliant, alert and aggressive secretary, so quick to grasp the hidden meaning of a complicated question, so ready to reply with incisive argument or cold logic, his mind so stored with musty precedents and invaluable facts, his memory so wonderful that he never forgot a name or face, and was more to be depended on than the written memoranda of most men—they have seen this man come to the council chamber in an apparently dazed condition. They have seen him attempt to address his associates and suddenly in the midst of a sentence forget his train of thought and lose the connecting link. The questions of yesterday he no longer remembers today. They have been presented with the pitiful spectacle of once great and brilliant genius slowly slipping away. They have known all these things and kept silent. They have humored Mr. Blaine and put up with many of his idiosyncrasies simply because his name was Blaine.

It is significant that most of Secretary Blaine's friends and public men generally have come to accept the secretary's letter in good faith. They believe he is sincere when he says he is not a candidate for President, and that his name will not go before the convention. Congressman Boutelle, of Maine, is one of the warmest admirers of Blaine in either house, and he thinks Mr. Blaine is sincere and is willing to cast about for other available presidential timber. Boutelle was the last man in 1888 to accept Mr. Blaine's declination as final. The letter from Blaine stating that he would not be a candidate for President, and that his name will not go before the convention, was sent to Boutelle, and he went to the Chicago convention sincerely shouting for Blaine. He fell in with Estee, Foraker, Thompson and the other Blaine boomers, and went earnestly to work setting up a Blaine boom. It required a personal cablegram from Blaine to convince Boutelle that he was in earnest. Boutelle profited by this experience and thinks he knows a Blaine declination when he sees it. He says Blaine's last letter is conclusive.

IRELAND IN ROME.
A Surprise Awaits Him: His Mission at the Vatican.

ROME, Feb. 11.—Archbishop Ireland, of St. Paul, Minn., arrived here today. He will soon have an audience with the pope.

St. Louis.—A surprise is in store at the Vatican for Archbishop Ireland, of St. Paul, Minn. As is generally known, the archbishop has gone to Rome for the good purpose of explaining and defending the advanced and, in some respects, radical views he is known to hold on some important church questions, and to make a plea against what has come to be dominated Chanceryism. He will find when he reaches the Vatican that the honor of first laying before the pope the troubles of the American hierarchy, growing out of nationalism, has already been achieved by Peter L. Foy, one of the most prominent catholic laymen of St. Louis, as well as one of the wealthiest and most prominent citizens of St. Louis. Mr. Foy was in Rome last summer when the famous Chancery letter was causing so much discussion throughout Christendom, and the question of appointing bishops of foreign nationalities to American dioceses, which was being so warmly backed up by German influences, was naturally alarming the prelates of the American college.

DIED HEROICALLY.
A Young Girl Meets Death While Endeavoring to Rescue Her Sister.

WHEELING, W. Va., Feb. 11.—A terrible accident occurred at Cameron near this city last evening, in which two beautiful young girls, daughters of Wm. Criswell, a wealthy citizen, lost their lives—one of them while heroically attempting to save the other. The girls were walking along the Baltimore & Ohio railroad tracks and while attempting to cross in front of a westbound train, Essie fell when the engine was almost upon her. Georgianna, seeing her sister's danger and ignoring the fact that the attempt was almost certain death, rushed to her rescue. She, too, stumbled and was struck by the locomotive and killed. Essie was cut in two by the wheels.

Wreck on the Michigan Central.
TILKURY CENTER, Ont., Feb. 11.—While an east-bound freight train on the Michigan Central railroad was standing on the main line at the station at 5 o'clock this morning it was run into by a west-bound train which should have taken a side track. Both engines and two cars were badly wrecked. Engineer Deyell, aged 28, of St. Thomas, who was driving the west-bound engine, was instantly killed. The rest of the trainmen escaped by jumping. Deyell was a cousin of Engineer Deyell who was killed in Chicago in a wreck three weeks ago.

Destructive Fire at Columbus.
COLUMBUS, Feb. 11.—The fire which started in the large block corner of Gay and High streets shortly after midnight this morning was gotten completely under control by 2 o'clock and was confined to the one building. The losses are as follows: Loss on building, \$25,000; Hammond & Patterson, wall paper store, \$14,000; McCoy & Walcott, clothiers, \$25,000; Stettner & Kock, music dealers, \$14,000; Faulhaber & Ridenour, \$11,000. Losses on offices, sleeping rooms, etc., on upper floors, \$30,000. The two injured firemen and the woman who was seriously injured by falling from the second story are doing well, and it is thought all will recover.

Lincoln for President.
[LONDON, Feb. 11.—Cable dispatches from the United States have freely mentioned the name of Hon. Robert T. Lincoln in connection with the nomination for the presidency. Mr. Lincoln denies in the most positive terms that he is or intends to be a candidate.

The increased demand for the Cross Creek Lehigh coal indicates that consumers are satisfied with its superiority over ordinary grades.
